No. T.7.p/p/55-58/Vol.IV

Imphal, the 8th August, 1959.

It is notified for general information that owing to land subsidence at the 5th mile from Kohima there will be transhipment. There is a loop road which is being made motorable but this is likely to take a few days. The Manipur State Transport will be sending equal number of buses from Imphal and Manipur road (Dimapur) so that transhipment can be effected. Private vehicles therefore unless they are Jeeps and carrying their own escort will not be taken in the convoy since obviously they would not be able to tranship. Escorted Jeeps can, of course, pass over the loop.

PART II

MANIPUR ADMINISTRATION

OFFICE MEMORANDUM.

Subject :— GRANT OF PREFERENTIAL TREATMENT IN THE MATTER OF SETTLEMENT OF CONTRACTS, PERMITS, FISHERIES, FOREST MAHALS ETC.

Under Article 46 of the Constitution of India, the State, is under an obligation to promote with special care, the economic interests of the weaker section of the people like the Scheduled Castes and Scheduled Tribes and to protect them from social injustice and all forms of exploitations. This policy is fundamental and mandatory. The economic interest of the weaker section of the people can be materially affected as a result of the policy that the State may follow in the matter of distribution of contracts, permits, fisheries, forest mahals etc. It is therefore felt that if their interests are judiciously promoted by all authorities under the Administration when contracts, permits, fisheries, forest mahals etc. which the Administration have to distribute in the discharge of their normal responsibilities, their comparative backwardness in the economic sphere can, to a great extent, be removed and it may be possible to bring the economically weaker section of the people to the level of the rest which is the objective set before the Country in pursuance of the directive principles of State policy. The Administration has, therefore, decided that all authorities connected with the settlement of contracts, permits, fisheries, forest mahals etc. should specially promote the economic interests of the Scheduled Castes and Scheduled Tribes by affording them all possible preference in the matter subject to the requirements of the public service and needs of the Administration. This Administration consider that generally in respect of works where it may be feasible contracts, permits, fisheries, forest mahals etc. when the works are settled on the basis of bids whether in auction or by tender, should be settled with candi-

dates belonging to the Scheduled Castes and Scheduled Tribes up to the limit of 10 per cent below the highest bid offered in any such case subject to the suitability of the person belonging to the category of people entitled to preferential treatment and his ability to perform the task satisfactorily and within such limits as regards the value of work upto which this concession will be available as may be fixed for the purpose. While this Administration does not desire that contract should be settled as a matter of course with persons belonging to Scheduled Castes and Scheduled Tribes if their bid is within 10% of the highest bid offered in any particular case, it cannot but emphasise that subject to suitability their case should be invariably considered favourably if the amount of their bid is within that limit. In any case in which the bid of a candidate belonging to a Scheduled Caste and Scheduled Tribe is not within 10% limit, but he is otherwise consider suitable for the performance of the work in question, he should, as far as practicable, be given an option to take the contract, permit or settlement at an amount to be fixed within 10 per cent limit according to the merit of such case.

2. It has also been decided that candidate belonging to the Scheduled Castes and Scheduled Tribes may be allowed in view of their comparative economic backwardness to deposit only 75% of the standard amount of security or earnest money for the purpose of any work. In respect of comparatively small work, requiring little technical skill, knowledge or equipment the desirability of granting preference to such people of the locality of the work for whose obvious advantages the works undertaken should also be considered for the sake of maximum local co-operation.

3. This will come into effect from the date of issue.

By order of Chief Commissioner,
T. KIPGEN,
Secretary : Manipur Administration.

NOTIFICATION

Imphal, the 12th September, 1959.
21 Bhadra, 1881 SAKA.

No. 18/8/59-L/S(H).--The undermentioned Bill is published for general information of the Public with the request that any view and opinion if any, may be sent to this Administration immediately but not later than 12th October, 1959.

THE UNION TERRITORIES (LAWS) AMENDMENT BILL, 1958

(To be introduced in the Lok Sabha)

A

BILL

further to amend the Union Territories (Laws) Amendment Act, 1950.

BE it enacted by the Parliament in the Ninth Year of the Republic of India as follows :

Short title and commencement.

1. (i) This Act may be called the Union Territories (Laws) Amendment Act, 1958.

(ii) It shall come into force at once.

Amendment of Section 3 Sub-Section (2). Act 30 of 1950.

2. In Section 3 sub-section (2) of the Union Territories (Laws) Act 1950, delete the proviso viz :—

"Provided that the Indian Penal Code (Act XLV of 1860) in its application to the State of Manipur shall have effect as if :—

(a) in section 361, for the word 'sixteen' in clause Fifty the word 'fourteen' had been substituted."

STATEMENT OF OBJECTS AND REASONS

In Section 361 of I. P. C. in view of the changes in the social structure in Manipur, more particularly among the women folk, in education and other spheres of life, to retain the age at 15 years becomes harmful to society as it has the effect of encouraging early marriage which Parliament seeks to check. The females in Manipur should be kept under the lawful custody and care of the lawful guardians until they attain the age of 18 years which is the age of discretion as is contemplated in the rest of India to which the Indian Penal Code apply. The effect of lowering down the age to 15 years is that divorce becomes very common in Manipur. Another effect is that persons committing acts which constitute crime in the rest of India go unpunished. Most of the kidnapping cases in Manipur are bound to fail as girls under 18 years, for want of proper discretion, are likely to be influenced by the accused persons when they come under the control of the accused saying that the girls give consent to the act. This Bill seeks to remedy these defects and difficulties.

2. Moreover, this appears to be in conflict with section 5 clause (vi) of the Hindu Marriage Act, 1955. There appears to be an anomaly in reducing the age of the female while in the male by two years under this section of the I. P. C. It seems that according to the present Act, the females of Manipur attain the age of discretion and capacity to judge things before attainment of the age of discretion by a male which is psychologically incorrect. This Bill seeks to remove this anomaly also.

3. In Section 375 of the same, there appears no cogent reason as to why the female of Manipur should be treated on a footing different from the rest of India in the matter of offence of raping. Females who are under sixteen years of age are incapable of judging things rightly and so even with her consent the acts which answer the condition in section 375 are made criminal whereas those acts do not constitute an offence in Manipur. According to medical Juris-prudence when females approach the age of 15 years, there is always a tendency to the natural urge and consent is likely to be given by such females. The result is the morality of society is degraded. This Bill seeks to remedy the evils which are brought about by lowering the age from 16 to 14 years.

4. In the Exceptions, the present Act which lowers down the age of the wife from 15 to 19 years appears to be in conflict with the provisions of the Hindu Marriage Act 1955 Section 5 clause(iii). This Bill seeks to remedy this defect.

(2) Whether there is any industrial dispute in respect of all or any of the demands of the workers of the Manipur State Transport as mentioned in their Notice dated 9-2-1959 ;

(3) Whether the demands contained in the above mentioned notice are justified. If so, what relief should be provided to the workmen concerned.

2. By Manipur Administration corrigendum Notification No. GA/Misc/56/XI/3(1) dated 15-4-1959 published in the Manipur Gazette Extraordinary No. 21-E-16 of the same date, the words and figures, "Section 10(1)(c)" appearing in para 6 of the notification of the even number dated 23-2-1959, were substituted by the words and figures "Section 10(1)(d)." I may state that the representatives of the workmen at the hearing agreed to this corrigendum being issued and also agreed that the reference should be proceeded with on the written statements of the parties on record, without fresh notices.

3. The Manipur State Transport Workers Union (hereinafter referred to as the Union) which represents the workmen concerned in this dispute, filed the written statement of claim on 26-3-1959 and the written statement in reply on behalf of the Manipur State Transport was filed on 15-4-1959, after which the dispute was heard by me at Imphal between the 12th and 15th May 1959, on which latter date at the joint request of the parties, and accompanied by their representatives, I inspected the rest rooms of the workers at the Headquarters of the Manipur State Transport at Imphal and their stations at Kaugpokpi, Mao, Kohima and the garage and office at Dimapur. Later, the parties supplied to me at Dhanbad certain documents and particulars, which were not available at the hearing at Imphal.

4. Before dealing with the demands on their merits it is necessary to state that the Manipur State Transport (hereinafter for brevity's sake referred to as the M. S. T.) was started in about 1948 by the old Ruler of Manipur State, but with the integration on 15-10-1949 of the former Manipur State the entire administration of Manipur, including the M. S. T., was taken over by the Central Government under the Manipur Administration order 1949, which was made in exercise of the powers conferred by Sections 2 and 3 of the Extra Provincial Jurisdiction Act 1947. With the taking over of the M S. T. by the Central Government its employees became Government servants. The M. S. T. is a passanger cum goods service and operates on several routes, but the main route is the Imphal Dimapur route which covers a distance of about 134 miles, part of which is through the Naga Hills Territory. Since July/August 1957 the M. S. T. enjoys the monopoly of the passenger traffic between Imphal and Mao and it secured the postal mail contract in 1957. Besides, there are other public transport services operating in the Manipur Administration area.

5. The Union is a registered trade union and there is no doubt that the majority of the employees of the M.S T. are its members. The Union, however, has not received recognition by Government as it has not applied for recognition under Section 28E of the Indian Trade Unions Act (XVI of 1926), evidently because its President, Shri L. Achaw Singh, M.P. is not a Government employee. The Union has, however, stated that it did not consider an application for recognition necessary as virtually it is getting the benefits of recognition by Government. Be that as it may, it appears that on 2.2.1959, the Union made certain demands and raised an industrial dispute, with regard to which certain discussions took place between the management and the representatives of the Union on 5.2.1959. The discussions did not lead to a satisfactory solution, as recorded by the Administration's letter to the Union of that date (Exhibit W-6). By Manipur Administration Notification No. XL/20/56 dated 4.2.1959 made in exercise of the powers conferred upon him by clause (vi) of Section 2 n) of the Industrial Disputes Act 1947, (Act XIV of 47), read with the Government of India late Ministry of States Notification No. 194 dated 24.8.1950, the Chief Commissioner of Manipur in the requirement of public interest, declared the M.S.T. to be a public utility service for the purposes of the Industrial Disputes Act, 1947, for a period of six months from the date of that order. Thereafter, on 9.2.1959 the union gave notice under Sectition (1) of Section 22 of the Industrial Disputes Act 1947 that it proposed to call a strike commencing from 23.2.1959 for the reasons stated in the annexure to the said notice, to which were annexed a list of the 17 demands which form the subject matter of item No. 2 under reference [Exhibits W.H., H(1) and H(2)]. The union tendered a copy of the strike notice to the Conciliation Officer, Manipur, who held discussions for several days with the representatives of the Administration and the Union, but as his efforts were not successful, he submitted a failure report dated 21.2.1959 after which as stated earlier the present reference was made on 23.2.1959.

6. I now proceed to discuss the issues under reference.

Issue No. 1—Whether the employees of the Manipur State Transport can give a notice of strike notwithstanding provisions of Section 4(A) of the Central Civil Services Conduct Rules, 1955.

7. The management contends that the M.S.T. being a department for the Administration of Manipur, the employees are government servants of the Administration to whom the Central Civil Services (Conduct) Rules, 1955 apply, and as such they cannot under Rule 4A thereof, give a notice of strike. Rule 4A(1) of the Central Civil Service (Conduct) Rules 1955 provides as follows :—

"Government Servants should not participate in any demonstration or resort to any strike in connection with any service matter."

The union in its written statement had argued that the Central Civil Service (Conduct) Rules has no application to the employees of the M.S.T. It has further argued that even assuming that the said rules are applicable they do not affect the workmen's right to go on strike in pursuance of an industrial dispute with the employers.

8 At the hearing before me on 13.5.1959 the learned Government Advocate appearing for the M.S.T. did not press a finding on this issue stating that the same appeared to be irrelevant in as much as the workmen in fact had not resorted to a strike. In view of this position it is not necessary to decide this issue. I may, however, state that Shri Mukherjee the learned counsel for the union relied upon the judgment of the Patna High Court (V. Ramaswami, C.J. and R.K. Choudhry J.) in the case of Kameshwar Prasad and others, Petitioners, Versus The State of Bihar and another, Opposite parties, (A.I.R.1959 (Patna) para 187 at page 192). One of the questions in that case was whether the restrictions imposed by Rule 4A of the Bihar Government Service (Conduct Rules (1956), which is in terms with the provisions of Section 4A of the Central Civil Service (Conduct) Rules 1955, were reasonable restrictions or whether these restrictions were unconstitutional as violating any of the guarantees under Article 19 of the Constitution. Their Lordships held that the restrictions placed by the Rule 4A were reasonable restriction and therefore not unconstitutional. Their Lordships, however, held that a restricted interpretation should be put on Rule 4A so as to make it constitutional, and the rule must be constructed as having application only to such Government Servants as are not governed by the provisions of the Industrial Disputes Act, 1947. Their Lordships observed that it followed that if a Government Servant is a workman within the meaning of Section 2(s) of the Industrial Disputes Act, 1947, rule 4A will not have any application to him.

9. It is clear from what I have stated earlier that the Manipur Administration itself considered that the Industrial Disputes Act, 1947 applies to the employees of the M.S.T. This reference has been made by the Manipur Administration under the provisions of Section 12(5) and Section 10(1)(d) of the Act. By notification No. IL/20/56 dated 4-2-1959, referred to earlier, made in exercise of the powers conferred by clause (vi) of Section 2(n) of the Industrial Disputes Act, 1947, the M. S. T. was declared to be a publice utility service for the purposes of Industrial Disputes Act, 1947. It is clear from the various notifications issued and actions taken by the Manipur Administration that it has applied the provisions of the Industrial Disputes Act to those employees of the M. S. T., who are workmen as defined by section 2(s) of the Act. It appears therefore, that the provisions of Section 4A of the Central Civil Services (Conduct) Rules, 1955, would not apply to those employees of the M. S. T. who are workmen as defined by Section 2(s) of the Act. However, in view of the learned Government Advocate not having pressed this issue, any further consideration of this issue is not called for.

Issue No. 2.—Whether there is any industrial dispute in respect of all or any of the demands of the workers of the Manipur State Transport as mentioned in their Notice dated 9.2.1959.

10. As stated earlier, along with the strike notice of 9-2-1959, the union had submitted a charter of 17 demands whose justification forms the subject matter of issue No. 2 under reference. The union in its written statement has contended that there is an industrial dispute in respect of all the demands contained in the said strike notice. The Administration in its written statement has contended that all the demands contained in the memorandum dated 9.2.1959, in particular, demands No. 1, 2, 3, 7 and 14 and 15 are not the subject matters of "Industrial Disputes within the meaning of Section 2(k) of the Act." Now, Section 2(k) of the Act defines an industrial dispute as follows :—

"Industrial dispute" means any dispute or differences between employers and employers or between employers and workmen, or between workmen and workmen, which is connected with the employment or non-employment of the terms of employment or with the conditions of labour of any person."

11. At the hearing Shri Mukherjee the learned counsel for the union conceded that Demand No. 1 which relates to the claim for reinstatement in service of the former Manager of the M.S.T. namely Shri K. H. Buda Singh, did not form the subject matter of an industrial dispute as defined by Section 2(k) of the Act, and he withdrew that demand conceding that Shri K. H Buda Singh was not a workman as defined by Section 2(s) of the Act. He, therefore, withdrew the demand without prejudice to such other rights Shri K. H. Buda Singh may have in the matter.

12. With regard to the remaining sixteen demands, I am satisfied that they are all in connection with matters relating to the terms of employment or with the conditions of labour of these employees of the M. S. T. who are workmen as defined by Section 2(s) of the Industrial Disputes Act. These demands, therefore, are subject matters of an Industrial dispute as defined by section 2(k) of the Industrial Disputes Act, 1947, which applies to the M S. T. which is an industry as defined by Section 2(j) of that Act.

13. The learned Government Advocate at the hearing in support of the first contention, argued that as the employees of the M. S. T. were Government Servants, they could not raise an industrial dispute, under the Indurtrial Disputes Act, 1947, which did not apply to Government Servants.

14. It is true that the Industrial Dispute Act 1947 does not apply to all Government Servants, but as held by the High Court of Bombay in the case of the Hospital Mazdoor Sabha Versus the State of Bombay (1957-I.L L J.p 55) if the Government carries on an industry as defined by section 2(j) of the Industrial Disputes Act 1947, that Act would apply to such an industry. That case related to the retrenchment of two employees of the J. J. Hospital at Bombay who were admittedly Government Servants. They were retrenched from service without the provisions of section 25F of the Industrial Disputes Act 1947 having been followed. It was contended on behalf of the Government of Bombay, as it is contended here, that the Industrial Disputes Act 1947 did not apply to the employees of the J. J. Hospital as the Government of Bombay by its activity of conducting the J. J. Hospital was not running any 'industry' as defined by section 2(j) of the Act which is in the following terms :—

"2.(j). "Industry" means any business, trade, undertaking, manufacture or calling of employers and includes any calling, service, employment, handicraft, or industrial occupation or advocation of workmen;"

Their Lordships of the Bombay High Court in negativing the contention observed as follows :—

"There is also no reason, why, unless the Act expressly so provides, Government should be given immunity from the provisions of this Act .. ..

If there is an activity which can be undertaken by a private agency and the same activity is carried on by Government, then it is difficult to understand why different principles should govern that activity when it is carried on by private agency or when it is carried on by Government. If that proposition were to be accepted, then if a private agency carried on a particular activity, it would be governed by the Industrial Disputes Act. If that activity was undertaken by Government, the Industrial Disputes Act would have no application. If the employees employed by the private agency doing the same activity should have the rights given to them under the Act, is there any reason in principle why they should be deprived of those rights when that activity is taken over by Government ? The result of accepting this contention would be indeed very serious. One important aspect of a Welfare State is the constant and increasing inroad of the public sector upon the private sector. More and more activities which in the past were considered to be essentially private activities are taken over by Government, and therefore this extraordinary result would be achieved that the more important the activities of Government become and more it seeks to achieve that objective of a complete Welfare State, the less rights labour would have in such a State. Therefore, in our opinion, the test we should lay down in order to determine whether a particular activity undertaken by Government is an "industry" would be to consider whether if that activity had been undertaken by a private agency, would it have been an industry to which the Act applied. If the Act had applied to that activity, then in our opinion, it is entirely immaterial whether ... ... is undertaken by Government."

Their Lordships also observed :—

"The fact that the Government is not making any profit out the hospital, the fact that all the employees are Government servants are, in our opinion, undoubtedly beside the point. In every industry run by Government the employees are bound to be Government Servants. In every industry run by Government the profit motive must be absent : the only profit that Government should think of making is the welfare of its citizens. Therefore, the true test is not the absence of any commercial element in the running of this hospital, nor the fact that the servants are Government Servants, but the test is, as we might repeat, whether the running of a hospital is a function so essential to Government that it can only be discharged by Government and cannot be discharged by any private agency."

15. His Lordship Justice Chandrasekara Iyer of the Supreme Court in the case of D.N. Banerjee Versus P.R. Mukherjee (1953-I-L-L J.p 200) observed that it is necessary to give the terms employed in the Industrial Disputes Act as wide an import as reasonably possible and considering the definition of 'industry' His Lordship held that the definition was apparently intended to include within its scope what might not strictly be called a trade or business venture. His Lordship posed the question :

> "If the public utility service is carried on by a Corporation like a Municipality which is the creature of a Statute and which functions under the Limitations imposed by the Statute does it cease to be an industry for that reason?".

I may pose the same question here as their Lordships of the Bombay High Court posed in the Hospital Mazdoor Sabha's case :—

"Does the fact that the M S.T. is carried on by Government make it cease to be an industry merely because of that reason?".

The answer must be in the negative.

Their Lordships of the Bombay High Court further observed :

"Immunity is only given to Government when it is administering true essential Governmental authority.. .....The relevant question is not that the State was the employer but that State was engaged in an industry as defined by the Act." (1957-I-L.L.J.p.61).

16. In the instant case there can be no doubt that in running the M S.T. the Manipur Administration is conducting an industry as defined by section 2(j) of the Act. This was not seriously contested by the learned Advocate, who appeared for the M.S.T. He, however, referred to the decision of the Hon'ble Supreme Court in the case of D.N Banerjee Versus P.R. Mukherjee (1953-II-LL.J.p.200) to which I have referred earlier as he said out of "a abundant caution". That decision if anything does not support this contention as pointed out by their Lordships of the Bombay High Court in the case of the Hospital Mazdoor Sabha Versus the State of Bombay (1957-I.L.L.J.p.61). The Scheme of the Industrial Disputes Act does cover industrial disputes in industries conducted by the Central Government. Section 2(g) of the Act defines the term 'employer' as follows :—

"Employer" means—

(i) in relation to an industry carried on by or under the authority of any department of the Central Government of a State Government, the authority prescribed in this behalf or where no authority is prescribed the head of the department ,

(ii) in relation to an industry carried on by or on behalf of a local authority, the Chief Executive Officer of that authority."

Clearly, therefore, section 2(g) of the Act contemplates an industry like the M. S. T. which carried on by the Central Government.

17. The definition of the term 'workman' under Section 2(s) of the Act would cover employees in an industry carried on by the Government. The only persons not included in the definition are the persons mentioned in clause (i) and (ii) thereof namely :—

(i) who is subject to the Army Act, 1950 or the Air Force Act 1950 or the Navy (Discipline) Act 1934 or

(ii) who is employed in the police service or as an officer or other employees of a prison.

As the employees of the M. S. T. do not fall in these excepted categories they are undoubtedly workmen as defined by Section 2(s) of the Act.

18. Rules 2(f) and (g) of the Industrial Disputes (Central) Rules, 1957 also indicate, as rightly pointed out by the Conciliation Officer in his report, that the Industrial Disputes Act, 1947 would apply to Government Servants who are workmen as defined by Section 2(s) of the Act employed in an industry, as defined by section 2(j) of the Act, carried on by the Central Government.

19. Apart from this, it is quite clear that the Manipur Administration itself considered and has acted on the footing that the industrial Disputes Act 1947 applies to the employees of the M S T. This is borne out by the fact that it has referred this dispute to this Tribunal in exercise of the powers vested by Section 12(5) and 10(1)(d) of the Act and issued its Notification dated 4.2.1959 made under Section 2(n) (vi) of the Industrial Disputes Act, 1947, declaring the M.S.T. to be a public utility service for the purposes of the Industrial Disputes Act 1947. Under Section 10 of the Act it is for the Government to determine whether an industrial dispute exists or is apprehended and whether to refer or not to refer such industrial dispute to an industrial tribunal under the provisions of that section. In my opinion, the Government cannot after having referred an industrial dispute in exercise of the powers conferred upon it by the Act, refer to the Tribunal the question whether a particular set of demands by the workmen constitutes an industrial dispute or not. The position of the Administration in this regard seems to be anamolous.

20. In my opinion, the demands Nos. 2 to 17 (both inclusive) under reference refer to terms of employment and conditions of service of such of the employees of the M.S.T., which is an industry as defined by Section 2(j) of the Act, who are workmen as defined by Section 2(s) of the Act and, therefore, this is an industrial dispute as defined by Section 2(k) of the Act. However, in adjudicating upon these demands, on their merits the Tribunal cannot overlook the fact that the workmen concerned in the dispute are Government Servants governed by the various service rules and regulations applicable to Government Servants.

21. Before dealing with the demands on their merits, I should like to deal briefly with the financial position of the M.S.T.

22. As stated earlier the M.S.T. was started in 1949 and today has a fleet of in all 73 vehicles, out of which 25 are passenger buses and 38 are trucks. It operates on several routes and in all has 319 employees in its six sections, of which only 88 posts are permanent and the rest are either temporary or casual.

23. The management at the hearing pleaded that the M.S.T. was not in a sound financial position. It has stated that between 1949 till the year ended 31.3.1958, the working of the M.S.T. had shown a let loss of Rs. 4,16,972. The result of the working of the M.S.T. for each year since 1949-50 to 1957-58 as shown in the mangement's statement (Exhibit E-29) was as follows :—

Year.	Net loss.	Net profit.
1949-50	Rs. 8,943	—
1950-51	—	Rs. 9,126
1951-52	—	28,114
1952-53	77,788	—
1953-54	27,929	—
1954-55	2,33,299	—
1955-56	—	96,724
1956-57	2,28,343	—
1957-58	—	25,366,

24. These figures were also deposed to by the Accountant of the M.S T. Shri Beny Bhushan Deb (E.W.2). It was, however, elicited in his cross examination, that the P & L accounts for 1954-55 uptil 1957-58 were prepared in 1958-59 and submitted for audit only on 17.2.1959. It was also admitted by the witness that the losses for the year 1954 55 (Rs. 2,33,299) were due to "huge amount of earnings not having been accounted for", and that the loss incurred in 1956-57 was primarily due and the closure of the Dimapur-Imphal route for some months of the year on account of damage caused to the vehicles of the company during the Naga disturbances in that year, otherwise the working would have shown a profit. It was further revealed in cross-examination of this witness that the figures of the receipts for the year 1957-58 were shown by Shri R.L. Sethi, the General Manager of the M.S.T., at a figure higher by Rs. 82,000 (at Rs. 9,91,767-67 np) than what is shown in the profit and loss accounts for that year. This statement was made by Shri Sethi in a letter dated 17.3.1959 which he had addressed to the

Assistant Secretary, (M.C. T.) Manipur Administration, Imphal (Exhibit E-27) when making out a case for the sanction by the Government of India on a permanent basis of the post of an Officer on Special Duty or General Manager for the M. S. T. The picture of the working of the M. S. T. presented in that letter is quite different from the picture presented by the Profit and Loss account statement. In that representation Shri R. L. Sethi has stated :—

"I may also add, in this connection, that our passenger and goods services are on the increase every year covering new routes, and the passenger services plying between the railhead (Dimapur-Manipur Road) and Imphal have been completely monopolised by the M. S. T. We have also since August, 1957 undertaken the carrying responsibility of Mail services of the post and telegraph department on four routes, which of course gave us satisfactory financial gains."

25. Shri Sethi in his evidence, however stated that the figure of the receipts for the year 1957-58 given by him in his said letter (Exhibit E-27) was incorrect and the correct figure of the income for that year was that shown in the profit and loss account for that year but he did not pause to explain how he had come to make that mistaken. From what is stated above, I am inclined to the view that the M. S. T. can be a source of considerable profit and that if it has shown losses in the past years it has been due to defalcations and disturbances and such other extraneous causes, and not because the service as such is not a profitable venture. In my opinion, this is not a case where the management would be justified in opposing the reasonable and justifiable demands of the workmen on grounds of financial incapacity to meet them.

Issue No. 3 :—Whether the demands contained in the above mentioned notice are justified. If so what relief should be provided to the workmen concerned.

26. The demands referred to in this issue are the 17 demands submitted by the Union in its notice dated 9-2-1959. I propose to deal with the demands in their seriatum order.

Demand No. 1 :—The abolition of the post of the Manager, Manipur State Transport and sudden termination of the services of Shri Kh. Budha Singh has shocked all the employees of the department. It is the highest act of injustice on the part of the Government to terminate the services of a permanent incumbent without any due and proper notice and appoint a temporary officer to the post of General Manager, Manipur State Transport. The repeated extension of the services of an inexperienced hand in this line and a retired personnel as Head of the Department and his appointment as General Manager is detrimental to the public interest. We strongly believe that it is also an attempt on the part of the administration to deprive the children of the soil of any chance of promotion and appointment to the post of General Manager. The hasty action of the Government has done a deadly blow to the sense of security of service of all employees. This action should at once be reviewed and the former Manager should be reinstated and appointed as General Manager as he is the most suitable person for the post.

27. As stated earlier, this demand has not been pressed by the Union and the same is therefore dismissed as withdrawn without prejudice to whatevere other claims and remedies which Kh. Budha Singh may have or be entitled to.

Demand Nos. 2(a) and (b) :— 2 (a) Appointment in the Manipur State Transport has been very irregular. Arbitrary appointment in the workshop, running staff, and office staff has been made by the Officer on Special Duty. Representations has been made by the Union on several occasions for the setting up of an appointment or selection board for the Department, but without any effect. A Board should be duly constituted for the purpose without delay.

2(b) : In the Board one representative of the union be included.

Demand No. 3 :—Promotions are the other source for the frustration and disappointment to all categories of employees in the Department. Arbitrary and whimsical exercise of power by the Head of the Department at the time of granting promotion is condemned. A promotion Committee should be set up to deal with promotion. Both seniority and merit should be considered as criterion for granting of promotion.

28. Demand 2(a) is for setting up of an Appointment or Selection Board for recruitment to the M. S. T. and under demand No. 2(b) the union claims representation on the Board.

Under Demand No. 3 the union wants a Promotion Committee to be set up to deal with questions of promotion on the basis of seniority and merit.

29. On 2-2-1959 a Departmental Committee for Recruitment/Promotion was reconstituted as per Manipur Administration Service Branch Office Memorandum No. CS/DPC/58—dated 2-1-1959 (Exhibit E-2). The Committee for the M. S. T. now consists of the General Manager, M. S. T. and two Extra Additional Commissioners, Manipur Administration, with which the union has expressed its satisfaction by its letter dated 30-5-1959 (Ex. W. 1). It would thus be seen that the demand Nos. 2 and 3 of the Union for setting up of the Appointment, Selection and Promotion Board for the M. S. T. has since been met. The union, however, under demand No. 2(a) claims that one representative of the Union be included in the Committee. Considering that this is a Government managed department and recruitment and promotion are governed by Government Rules, there is no scope for appointment of a representative of the union on that Committee. The reconstituted recruitment/promotion committee can well be left with the task of selecting proper candidates and to decide the questions of promotion on the basis of seniority and merit. The demand of the union for a representation on this Board is therefore rejected. The Union's grievance, however, is that even after constitution of the Committee for Recruitment/Promotion, appointment on two occasions were made by the General Manager of the M. S. T. without the Committee meeting. The Union has drawn the attention of the Administration to this by its letters dated 30-4-1959 (Exhibit W-1) and 1-5-1959 (Exhibit W-J). The union's other grievance is that even now in the matters of promotion to higher posts and appointments to permanant posts in the M. S. T. the existing employees of the M. S. T. are not being given a fair chance and it also complains that they are not even informed when these vacancies are filled in. I have had the benefit of hearing the explanation of the General Manager of the M. S. T. on these two grievances of the workmen and it appears to me that there is justification for these complaints of the Union and I would, therefore, recommend to the Administration to insist that in future all recruitments and Promotions are made after consulting the Committee and after the existing employees are informed of the vacancies to be filled in.

> **Demand No. 4 :** The arbitrary grant of an advance increment without any consideration of the services of the employees promotes favouritism and unfair and unhealthy practice on the part of the authority. On the other hand, withholding of increments and promotion is adopted as vindictive measure. These practices should be stopped.

30 The Union's complaint is that advance increments have in the past been granted on the basis of favouritism and discrimination which has created great resentment among the employees. The union also alleges that the increments have also been arbitrarily withheld without adequate cause. The union has urged that to avoid these undesirable practices, no advance increments should be granted and no increments should be granted and no increments should be withheld without the prior approval of the Recruitment/Promotion Committee. The management in its written statement has denied that advance increments have ever been granted on the basis of favouritism and discrimination. It is submitted that advance increments whenever granted have been given for good work or as an incentive for extra responsibility undertaken and as recognition of extra qualities which an employee possesses, which is based on well recognised principle of good administration in any service. At the hearing evidence was led on this subject. It appears that so far there have been only cases of two employees who were granted advance increments. Shri R. L. Sethi, the General Manager of the M. S. T. has explained that the advance increments were granted to those two employees for good work or as an incentive for extra experience and recognition of extra qualities which these employees possessed. There has been only one instance when increments were with-held and that was in the case of one Shri H. G. Singh (W. W. 2) who gave evidence at the hearing. It appears that this particular workman had received 5 advance increments and had lost 2 increments by way of punishment for a certain misconduct. In Government Service cases justifying grant of advance increments or of with-holding increment are governed by the Service Rules. The only recommendation that I should make is that in all such cases those rules should be strictly adhered to.

Demand No. 5 Confirmation to the respective posts of the employees has been postponed and delayed and no consideration to the length of service of the respective employees is made. This deprives the employees of their legal rights and so all the employees who have contributed a considerable length of service should be given confirmation.

Demand No. 6 :—At present the daily allowance for over-night haltage is Re. 1/- and is quite inadequate to cover the daily incidental charges. For all categories of employees the daily allowance should be increased to a minimum of Rs. 2/ whenever an overnight halting has to be made

37. The Union in support of this demand has stated in its written statement of claim that at present a sum varying between Rs. 1-2-0 and 0-11-0 is paid as daily allowance for over night haltage. In support of its demand for an allowance of Rs. 2/- for over night haltage for all categories of employees, the union has urged that the existing rates of daily allowance are inadequate to meet the expenses which an employee of the M. S. T. has to incur when he has to spend a night away from home, nor does it compensate him adequately for the additional hardship and disadvantages connected with over-night haltage The union has pointed out that at many stations there are no arrangements for meal and proper accommodation and consequently considerable hardship has to be suffered by the workmen, who have to stay over night at those stations The union has demanded that the existing rate of daily allowance should be increased to Rs 2/- per night haltage for all categories of employees of the M S T. The management in its written statement has pointed out that a proposal for the introduction of a trip allowance has been submitted to the Government of India and their decision is awaited. It is further pointed out that the employees of the M S T are allowed to carry to the extent of 10 seers of rice with them when they go out of Manipur State

38 At present an allowance per trip of Re 1-50NP is paid to drivers Re 1 to cleaners on the Dimapur Imphal route The conductor however at present is daily allowance of Re 1- minimum per day if they only halt at night. The secretary (I) Manipur Administration by his letter dated 28th March, 1959 (Exhibit C-1 with Enclosure No 2) gave to the Government of India Ministry of Transport and Communications a proposal for the introduction of allowance to drivers cleaners and conductors not only on the Imphal Dimapur but other routes of the M S T under the recommendations of the Imphal Dimapur route drivers would get an allowance of Re 2-50NP and cleaners and conductors Rs 1-50 NP per trip. On the Imphal-Kohima and Dimapur Kohima routes the trip allowance proposed is Re 1-00 NP for drivers and cleaners and conductors and on the other routes the trip allowance proposed is 0-50NP for drivers and cleaners and conductors. It is also suggested that conductors should be paid a night allowance of Re 0-50 NP on the Imphal-Dimapur, Imphal Kohima Nowgong Palel and Dhonbal services The Secretary also suggests that trip allowance in case of inland route should be a maximum of Re 1-50 NP per day.

39. The payment of daily [illegible] is governed by the Factories Act and Rules which apply not only to those employees but also to the other Government Servants and therefore it is not possible to raise those rates for these employees, without creating discontent in other departments of the Government What the Administration has proposed and that appears to be one way of meeting the demand is to grant them an improvement in the existing trip allowances. I have had the benefit of an inspection of the conditions at the terminus of the Imphal Dimapur route of the M S T and I am of the opinion that there is substance in the statement of the union that conditions in those area are particularly difficult both in the matter of securing food and lodging for the night halt. It is now proposed to give trip allowance not only to drivers and cleaners but also to conductors on the Imphal Dimapur route and also extend this benefit to other routes at rates which appear to be adequate But before trip allowance at the proposed rates can be granted, sanction of the Government of India is necessary. I have not the least doubt that the Government will consider favourably the recommendation of the Administration and would strongly recommend that trip allowance at the proposed rates be sanctioned from 1-3-1959.

Demand No. 7 :—On festival days or public holidays employees have to work without any extra allowance. They should be given allowance for such extra work.

40. The union in its written statement of claim has stated that the employees in the workshop are called upon to work half the day on public holidays whereas the running staff have to work as usual for the full day. The clerical staff, however, enjoy these holidays. The

union has fairly conceded that transport services have to be maintained even on festival and public holidays and therefore the traffic staff cannot claim public and festival holidays. It has, however, claimed that they should be paid a compensatory allowance at the rate of three times their daily wages on the 31 different public and other holidays in the year observed in Manipur. The union has also claimed that this demand should be granted with retrospective operation from 1958.

41. The management in its written statement has opposed the demand by stating that replies received by it from Bombay and Madras State Transport services reveal that the practice followed all over India is that the employees of traffic sections get no extra remuneration for working on public and festival holidays. It is further stated that the question of giving employees some sort of compensatory allowance for working on Independence and Republic days (i.e. 15th August and 26th January, is under consideration of all other State Transport and this Administration is ready to consider that question on a decision being arrived at by the other State Transports.

42. I find from the report of the Labour Bureau of the Government of India on the enquiry conducted by it under the Labour conditions in Public Motor Transport in India (Simla August 1958) one of the Indian Labour Gazette Vol. X issued on page 141 that the number of holidays with pay granted either considerably increased to the running staff from Bombay (one month) and Orissa (two holidays per month) in January. I have already noted the 29 paid holidays (increased to 31) granted by the Government of Bombay to the employees of the M.S.T. and the West Bengal employees get double the ordinary wages on public and festival holidays and the running staff is not granted any of these holidays. In West Bengal the Public Transport workers get 12 compensatory holidays in lieu of the 12 festival holidays. The report however does not say whether the transport workers in the various states are paid any extra allowance for working on public holidays. The union has failed to evidence nor has it placed any material to show that in other States compensatory holidays are paid to those workmen who are made to work on Paid Holidays. By the very nature of their duties workmen in certain occupations cannot be granted monetary like public holidays or paid overtime wages in lieu of rest as a matter of regular practice. Such a practice may encourage frequent absenteeism on the part of the workmen on the days of their weekly rest and on festival days. Even in the case of Government employees working in public offices under the Government of India, they are not paid any compensatory allowance for working on festival holidays. In my opinion, the claim for compensatory allowance for working on festival holidays in addition to the normal number as many as 31 days in a year, as also the rate at three times the daily wages claimed by the Union is excessive. In other States the question of granting employees in the Public Transport some compensatory allowance for working on Independence Day and Republic Day (i.e. 15th August and 26th January) is under consideration and the Manipur Administration has stated that it is ready to consider that question when a decision is reached by the other State Transports. As it is not known what such decision would be or when reached. The Government of India generally agrees to compensate the private sector for the extra cost these two National holidays as paid holidays to its employees, where they are normally observed. Considering all the facts and circumstances of the case, I think that it would be reasonable for the present to direct that those of the employees of the M.S.T. who are made to work on Republic Day and Independence Day (i.e. on 26th January and 15th August) in any year, shall be paid an additional allowance equivalent to an additional day's wage (Basic wage and dearness allowance).

43. With regard to the workshop employees who work for half the day on these two holidays shall be entitled to an additional half day's wages (Basic wage and Dearness Allowance) as a compensatory allowance. I further direct that the benefit shall be granted with effect from January 1959.

Demand No. 8: -There are no weekly holidays for the running staff such holidays should at once be sanctioned.

44. The Union in its written statement has admitted that by order dated 29/30 December 1958 the running staff have been allowed one paid holiday each week. The complaint of the union, however, is mainly with regard to the manner in which the weekly holiday is granted to the running staff. According to the union no weekly holiday roaster is prepared for the running staff with the result that they do not know at the beginning of the week, which would be their

weekly off day. Their complaint appears to be that the running staff is sometimes informed only a day in advance of their appointed weekly off day, and are thus prevented from making the best use of it. The Union, therefore, demands that a holiday roaster should be prepared and hung up at a prominent place of the establishment for the information of the running staff and there should not be any deviation from that roaster, except under emergent circumstances.

15. The management's case is that because of the very nature of their duties employees in the out-agency and the traffic section and workshops cannot enjoy a uniform weekly holiday. The weekly holidays are therefore granted to workmen by rotation. This appears to have been satisfactorily organised in the out agency and the workshop sections. With regard to the traffic section the management's explanation was that the fixing of weekly off days for the traffic staff is in the process of being properly organised. It is pleaded that as the "in charge" are inexperienced people there has been some confusion over intimating well in advance the day on which each member of the running staff would get his weekly off day.

16. After hearing the arguments of both the parties on the point, I am satisfied that the union has a justifiable grievance with regard to the manner in which the weekly off days are granted to the running staff. The union's demand for the preparation of a roaster indicating well in advance the weekly off days for each member of the running staff would enjoy the weekly off day is justified and I therefore direct that a holiday roaster should be prepared and hung in prominent places a week in advance and that the same should be allowed to except in cases of real exigencies of service.

Demand No. 9 : - At present there is no provision for overtime allowances for employees. Extra allowance for overtime work must be given.

17. The management's written statement has stated that no overtime is paid except to the workshop employees who are governed by the Factories Act and to the running staff as per agreement. The union contends that not to the workshop employees but also to other employees have to work beyond the scheduled hours of work. Mr. Amom has pointed out that at present in the traffic section of the department the work is divided for each shift as early and late duties and that the movement should be effected on all the days in a week and that there should be no discrimination in the matter of overtime wages to which any employee may be entitled.

18. The management in its written statement has stated that no employee is now required to do overtime and as such the demand for payment of overtime does not arise. At the hearing the union stated that there would be no dispute over the question whether the workmen actually do overtime work or not if only there is some system of time by which to ascertain the time when the work of each employee ends for the day is recorded. The management does not deny that it would be liable to pay overtime if actual overtime work is done. The workshop employees are governed by the Factories Act and the payment of overtime would have to be made to them at the overtime rate fixed under the Act. Shri R. K. Sethi in his evidence stated that he would have no objection to the system being introduced by which the exact time when the employees end their work for the day is recorded. It appears that in the workshop the departure time is recorded in the attendance register. In my opinion, this is an satisfactory evidence. It should be very easy for the management to introduce the system of recording the ending of time in the attendance registers and I am surprised that this is not being done till now. Even the fact whether a particular employee worked overtime or not and the details thereof can easily be determined. With regard to the rate of payment of overtime the union demands that at double the normal rate per day. I would direct that those of the employees who are governed by the Factories Act would be paid overtime at rates as provided under the Factories Act and others should be paid at 1½ times their normal rates of pay including dearness allowance for all hours of work beyond their scheduled hours of duty.

Demand No. 11 : The absence of any separate code for the M.S.T. has been an obstacle in the guarantee of security and favourable terms and conditions of service of the employees under M.S.T. Hazazard and winnowed rules and standing order are issued by head of the department from time to time to the detriment and interest of the employees. So a comprehensive service code should be framed for the Manipur State Transport.

49. In its written statement the union has claimed that standing orders should be framed and certified under the Industrial Employment (Standing Orders) Act 1946, but as pointed out by the management under the provisions of Section 13B, that Act is not applicable to the M.S.T. in as much as the workmen employed therein are persons to whom the Fundamental and Supplementary Rules Civil Service (Classification and Control) Appeal Rules, Central Civil Service (Temporary Service) Rules, 1949 and or other Government Rules mentioned in that section apply. The management in its written statement has stated that Departmental Standing Orders have been recognised by the Administration and are now in existence, copy of which has been supplied to the union. The administration in its letter of 5-2-1959 addressed to the Union (Exhibit W-G) has stated that the existing departmental rules will have to continue with suitable changes wherever necessary, to be approved by the Government of India until such time as the undertaking is declared commercial.

50. Since the Industrial Employment (Standing Orders) Act, 1946 clearly does not apply to this establishment the demand of the workmen for getting standing orders certified under that Act cannot possibly be granted. There is, however, no doubt that there does seem to prevail a considerable amount of confusion as to what exactly are the rules governing a particular condition of service. Before the Conciliation Officer the management undertook that a code would be framed after the more advanced State transport codes for their Transport Service, but that in the meantime the workmen may suggest any changes as may be necessary in the existing orders and the same would be considered by the management and I would endorse that suggestion.

Demand No. 12 :—Uniforms for the running staff and other employees should be supplied.

51. In support of this demand the union in its written statement has stated that in all the State Transport Employees other than those in Manipur and Tripura are provided with uniforms and that the M.S.T. is one of the few exceptions. The union claims that the nature of the service requires that uniforms be supplied to the employees. In its written statement the administration has challenged the correctness of the statement of the union. It is pointed out that not all transport services in India provide uniforms to their employees. The management has, however, stated that it has recommended to the Administration that the staff should be provided with uniforms and those recommendations are under the consideration of the Government of India. It also appears from the minutes and Charges of the M.S.T. Employees Union that the Assistant Secretary, M.S.T. Employees Union, Imphal by his letter dated 20th April 1959 (Exhibit E-9) from the Administration has accorded sanction for the supply of liveries to Workmen of the M.S.T. However, a letter to the Secretary to the Government of India, Ministry of Transport and Communications, New Delhi recommending grant of uniforms for the Manipur Road Transport Department staff. The statement Annexure 'A' thereto which is marked Exhibit E-9(1). The uniforms as stated in the for summer and winter seasons for Traffic Inspectors, Drivers, Conductors, etc. as stated in the at the hearing had nothing to say with regard to the items and quality of clothes suggested are both to be supplied, but its anxiety was that these uniforms should be supplied without any delay, and that the matter should not be delayed till the Government takes a decision proposed the matter is already under the consideration of the Government. I would recommend rather cision granting the proposals made should be taken at the earliest as the demand of the workmen for uniforms appears to be justified considering the conditions of their work and the areas in which they have to operate.

52. It appears that on 3-2-1959 the Secretary (D) of Workers, Store Handlers of the M.S.T. Administration addressed

Demand No. 13 : Rest hour for the running staff at the Headquarters should be provided so that driver and conductors may have rest and sleep during the night on the eve of the Dimapur trip.

53. The running staff on the Imphal-Dimapur trip are called upon to report for work at 2.30 a. m. The Administration has provided a rest room for the staff who necessarily have to come to the headquarters earlier in the night so as to be able to start on the trip which leaves the headquarters at 2.30 a. m. The union complains that the rest room provided at the headquarters is inadequately equipped, and there is no bath room or lavatory nearby and sufficient number of cots are not provided. The union therefore demands that an adequately equipped and properly ventilated rest room should be provided without delay for the running staff at the headquarters

so that the drivers and conductors may get some sleep before starting for the Dimapur trip at 2.30 a.m. The management in its written statement on the demand has stated that the amenities to the existing running rooms are being added. It is stated that representations have been made for the changing of the convoy's time en-route and it is expected that the Dimapur convoy will start leaving between 5 and 6 a.m.

54. I had the opportunity of inspecting the rest room at the headquarters along with the representatives of the parties. The rest room has only a few cots and it appeared to me that the grievance of the workmen with regard to lack of proper ventilation and the facilities provided therein, is justified. There is no bath room or lavatory near the rest room though I was shown a water tap at some distance from the rest room. The Administration can easily provide drinking water in the rest room, as also more cots. It could also provide some furniture and other amenities to make the stay of the running staff comfortable during the hours they have to spend there before starting on their trip at the odd hour of 2.30 a.m. I, therefore, direct that the management should at the earliest attend to this. I cannot help observing that there appeared to be a general lack of consideration for the convenience of the workmen in this matter and that a more sympathetic attitude on the part of the management would help greatly to remove the discomforts that the workmen are at present experiencing.

55. Before this rest room was provided the practice was that the management used to provide free transport from the residence of the running staff to the headquarters. This was stopped in March, 1953, because it was objected to by the Accountant General, Assam. Considering the akward hour of 2-30 a.m. at which the Dimapur Imphal ... free leaves, I think the demand of the workmen for supply of free transport to the head ... reasonable and I would therefore award that the practice of providing free transport ... which has been discontinued should be restored within a month from the date this award comes enforceable. (Ukhrul should be provided

Demand No. 11: - Staff quarters for the employees at Dimapur, Kohima and Ukhrul station of the M.S.T. The Union's complaint is that those employees in the sand places and pending such construction, houses should be hired by M... quarters should be built for the accommodation of and let out to the employees free of rent.

56. It appears that certain staff are posted in Dimapur ... has stated that staff quarters are already provided in Dimapur and Kohima and ... inadequate. It is demanded that the question of adequacy will be examined and if it is possible under the rules ... may be carried out after making the necessary budget provisions. A similar reply was given by the management in its letter to the Union dated 5-2-1959 (Exhibit W-6). ... was also discussed at some length before the Conciliation Officer and from his report ...

57. The management in its written ... consented by the management in its letter to the Union dated

58. This question ... that at present there is no staff posted at Ukhrul and there is ... staff quarters there. It also appears that the General Manager has written ... Commissioner for provision of sleeping accommodation at Ukhrul for the drivers and ... who go there twice a week. There is however, a proposal under the consideration of the Administration that the Ukhrul service be discontinued. The workers appear to have expressed satisfaction at the management having written to the Deputy Commissioner for sleeping accommodation at Ukhrul and no directions with regard to accommodation at Ukhrul are therefore called for.

59. With regard to accommodation at Kohima and Dimapur, the workmen have expressed their dissatisfaction with the accommodation provided to the staff posted there. They want that a suitable house be hired and in the alternative they be granted house rent allowance. The management appears to have offered to hire a house at Kohima at a maximum rent of Rs. 100/- for the staff. The workers evidently were willing to suggest such a house but they requested that the ceiling of the rent of Rs. 100/- per month be raised. With regard to Dimapur, the General Manager had stated before the Conciliation Officer that he had called for plans and estimates for a running room with a kitchen, bath etc. and for a room for the workshop staff. The workmen on the other hand proposed that the existing retiring rooms should be used as running rooms and quarters for the workshop staff, till such time regular rest rooms and quarters for the workshop and running staff are constructed.

60. I have had the benefit of inspection of the accommodation provided for the Staff of the M.S.T. posted at Kohima and Dimapur and I may state that I found the accommodation unsatisfactory. A Station Master, two clerks, and a peon, are posted at Kohima and this staff lives in the office, which is also used as a godown. I found the Kohima station stock full of luggages and parcels. There is no separate rest room for the running staff who have occasionally to spend the night there. At Dimapur the station staff consists of one Station Master, two Lower Division Clerks, two clerks and one peon, who are accommodated in the office premises. These arrangements were also in my opinion unsatisfactory. With regard to the workers of the workshop at Dimapur, six of them are at present residing in a garage. The running staff are also provided accommodation in the garage which is their rest room. I found these arrangements also unsatisfactory. There was only one room near the garage in which the running staff and the workshop workmen reside. The management has pleaded that under the Government rules no duty is cast on it to provide housing accommodation for the staff posted at Dimapur and Kohima stations. I was told that the staff also rotates every six months except for the Station Master at Dimapur. All the same, the management has accepted the obligation for providing accommodation for the staff posted at Dimapur and Kohima.

61. From the record of the proceedings before the Conciliation Officer it does appear that the management is now moving in the matter of providing staff quarters for the staff posted at Dimapur and Kohima and also making efforts to provide better accommodation for the running staff which halts overnight at those two stations. I am conscious that this being a Government department it would take some time before these efforts of the management fructify. It is also to be remembered that there is scarcity of accommodation and there are many difficulties to be overcome before proper staff quarters can be constructed either at Dimapur or Kohima. But if real efforts are made in this matter, as in my opinion, they should be made in the interest of industrial peace, something could be achieved within a reasonable time and I strongly recommend the management to provide better quarters for the staff posted at Dimapur and Kohima and also to provide better rest rooms for the staff staying there overnight. There can be no question of granting any compensation in lieu of this, to the workmen concerned, under the Service Rules the staff are not entitled to free housing at these stations.

Demand No. 15 :- Muster Roll workers in the Manipur State Transport workshop should be regularly employed and the rights of the other employees of the staff should be conferred on them after three years.

62. It was ascertained at the hearing that there are about 37 casual workers who are employed on muster rolls in the workshops of the M.S.T. Shri Hodam Iura Chandra Singh, Assistant Engineer in the M.S.T. (E.W. 3) in his evidence stated that of the 37 casual workers two are skilled workmen and all the rest are semi-skilled. He further stated that about 4 of these casual workers have been in continuous employment since the last 7 years. These muster roll employees are not allowed paid weekly holidays or any annual leave with wages. The union's witness Ghyanendra Singh (W.W. 3) gave particulars of the categories of these casual workers from which it appears that about 10 or 11 of them are carpenters and about 20 are fitters including a blacksmith and about 3 or 4 are cleaners. The management's case is that it is not possible to confirm these muster roll workmen as permanent employees, but that it was proposed to create six temporary posts of carpenters and when these posts are sanctioned, the question of absorbing the casual carpenters in those posts would be considered. The management also pointed out that 4 casual fitters have been absorbed in vacancies as they occurred and it assures that as and when suitable vacancies occur casual workers who are found competent would be absorbed. The management suggested that as it is not easy to get skilled workers in Manipur, a pool of casual workers is necessary. It appears from the conciliation proceedings that the proposal for creating the six posts of carpenters has been submitted to the Government of India. The workers, however, wanted that six more posts of fitters should also be created and the casual fitters on muster roll should be absorbed in those posts. The difficulty of the management is that it does not consider the casual fitters to be properly qualified to be promoted as regular fitters and it has pointed out that recently only 5 fitters passed a test held by the management and they are going to fill up those vacancies.

63. It does appear to me that the workmen have a genuine grievance in the manner in which workers have been employed as casual workers over a period of years. The M.S.T. is an expan-

ding department and it should be possible to put the casual workers at least on the basis of temporary employees. By being treated as casual workers and being placed on muster rolls and paid daily wages they do not get the benefit of a paid weekly holiday nor are they entitled to other benefits which the temporary workers of the M. S. T. enjoy. I think this is manifestly unfair to these casual workers who have been in employment over years and I would strongly recommend to the management and the Administration to seriously consider the possibility of appointing at least those casual workers who have put in 3 years continuous satisfactory service and who are found competent as temporary workmen so that they may get the benefit which the temporary workmen get.

Demand No. 16 :- At present there are no chowkidars' sheds in all the stations and the Headquarters of the M. S. T. except at Dimapur. The sheds should at once be constructed.

64. The Union in its written statement has stated that the management has conceded the justification for this demand but that no steps have been taken for the construction of the sheds. It is, therefore, demanded that the shed should be constructed without any further delay. The administration in its written statement has stated that budget provision is being made for the cost of the construction of the chowkidar shed and that no sooner the Government of India sanctions necessary funds chowkidars sheds would be constructed. Before the Conciliation Officer the General Manager in reply to the workers' demand for the immediate provision of the Chowkidars' shed at Imphal stated that he would allot a room near the canteen as a temporary measure pending construction of a regular chowkidars' shed in 1959-60. I cannot help observing that even this small demand the justification of which is conceded is not being met because of departmental routine dialectic. I am sure if the matter is seriously taken up by the management they could find ways and means to meet this demand. I would therefore direct that the chowkidar sheds should be provided as claimed within six months of this award coming enforceable.

Demand No. 17 :- A general revision of the pay scales of the employees should be made with due and proper consideration of the special characteristic of the commercial undertakings.

65. In support of the demand the union in its written statement of claim has stated as follows :-

"With reference to demand No. 17, the Union states that the prevailing wages in the Manipur State Transport are inadequate. The cost of living at Manipur is high. All manufactured goods have to be brought over long distances, often by air and at great costs. The scales of wages have been fixed arbitrarily and without reference to the cost of living or to the nature of work which is of a hazardous character. The minimum wages are well below what minimum wages ought to be. The union demands that the present minimum wages should be raised by Rs. 10/- per month and that existing differentials between grades and scale be maintained by granting similar increases in respect of all other grades and scales."

66. The M. S. T. in its written statement in reply has stated that the pay scales of all the staff had been recently revised and it was not possible to start any other kind of general revision at this stage. In his letter to the Union dated 5-2-1959 the Assistant Secretary (L) Manipur Administration clarified that the pay scales of Grade III and IV clerks had recently been revised by the Government of India and therefore any general revision of pay scales was not possible.

67. At the very outset it is necessary to state that at the hearing it was argued that the increase of Rs. 10/- per month demanded may be granted either in the basic wages or in the dearness allowance paid at present. But the latter basis for the demand cannot be considered as the Tribunal must confine itself to the terms of the demand, which forms the subject matter of the reference. As the demand made by the workmen is clearly for an increase of Rs. 10/- in their existing basic pay, the demand for the increase of Rs. 10/- per month, cannot be considered as a demand for increase in the existing rate of dearness allowance. At a later stage of the hearing, it was urged that the increase of Rs. 10/- demanded may be awarded even as an ad-hoc allowance. But for the same reason, as stated above, the demand cannot also be considered in this altered form.

68. The existing scales of pay for the clerical staff of the M.S.T. are those which were sanctioned, with retrospective effect from 1-1-1957 for the clerical staff in the entire Manipur Administration and they are :—

Upper Division Clerks : Rs. 100-5-180

Lower „ „ Rs. 55-3-100-5-130

When these revised scales of pay were put in operation the then existing pay of each employee was fixed in the new pay scales under F.R.22(a)(ii) and he was allowed the option admissible under F.R.23 (Exhibit E-11).

69. At the same time the pay scales of the various class IV Government servants under the Manipur Administration were revised also with effect from 1-1-1957. These revised scales of pay are also applicable to Class IV employees, who are now paid in the pay scale of Rs. 25-1-40, which is also the pay scale for like categories of employees working in the other departments of the Manipur Administration.

70. The pay scales at present in force for the various other categories of employees in the M.S.T. are those shown in the statement (Exhibit E-18) filed by the management. It is admitted that no category of employees in the M.S.T. is getting a lower scale of pay than paid for a like category in the other departments of Manipur Administration. In fact drivers of the M.S.T. who number about 60 [(See Exhibit E-23 (a)] are all in the scale of pay Rs. 60-3-105 which is the higher of the two scales of pay fixed for driver

71. With regard to the casual workers entertained by the M.S.T. they are on daily rates of pay which vary from Rs. 3 - per working day for the head-carpenter (skilled) Rs. 2-8-0 for 2nd Carpenter (skilled) and Rs. 1-12-0 for semi skilled carpenters and fitters. (Exhibit 18)

72. The revised pay-scales for the Transport Department of the Manipur Administration are mentioned in the schedule to the Ministry of Home Affairs letter No. 1-82-67-M.T. dated 1.10.1958 (Exhibit E-15). The Administration has also filed the scales and rates of pay payable to its employees in the P.W.D. (Exhibit E-15-16 and 17). I may repeat that these statements show that for no like category is the scale of pay fixed for the M.S.T. lower than in the P.W.D.

73. The dearness allowance paid to the employees of the Manipur Administration is based on the rate of dearness allowance sanctioned from time to time by the Assam State Government for its employees. These rate till their recent revision to which I shall refer presently, were :—

Basic Pay.	Dearness Allowance.
1. Government servants drawing pay not more than Rs. 30 or below.	10% plus Rs. 6
2. Government servants drawing pay not more than Rs. 60 - or below.	20% plus Rs. 6 -
3. Government servants drawing pay not more than Rs. 100/ or below	15% plus Rs. 6 -

74. In February 1958, the Assam Government sanctioned with effect from 1.1.1957 an ad hoc increase in the dearness allowance to those Government Servants whose total emoluments (pay plus D.A.) would not, after the ad hoc increase, exceed Rs. 100 - per month subject to the condition that the total increase in emolument under the revised pay scales adopted in Assam, plus the ad hoc increase in dearness allowance, would not exceed Rs. 12 - in each case.

75. The Manipur Administration by Finance Department Resolution dated 23.4.1958 (Exhibit E-19) granted the same increase in dearness allowance to its employees as was granted by the Assam Government, also with effect from 1.1.1957. The resolution provided that the ad hoc increase in dearness allowance will be reduced proportionately by future increements and also the marginal cases by the amount by which this increase exceeds Rs. 100/- p. m. as total emoluments. From a statement filed by the management (Exhibit E-32) at the hearing it appears that about 209 employees of the M. S. T. got some increase in their dearness allowance paid to them in March 1959 and that the total amount of the benefit for that month amounted to Rs. 1,560-27 Np.

75. From the foregoing it will be seen that the pay scales as also the rate of dearness allowance paid to the employees of the M. S. T. have been raised and revised only recently. Under the existing rates of pay and dearness allowance the monthly emoluments paid to the lowest paid Class IV workers, conductor and drivers who together constitute the majority of the employees of M. S. T. is as follows :-

	Pay Scale	Basic pay of the lowest paid	D. A.	Total monthly remuneration
Class IV Employees	Rs. 25-1-40	Rs. 25	Rs. 23	Rs. 48
Conductor	30-1-45	30	30	60
Drivers	60-3-105	60	18	78

It must also be remembered, as I have stated earlier when discussing demand No. 6, that drivers on the Imphal-Dimapur route get a trip allowance and that it is proposed to extend that benefit to cleaners and conductors not only on that route but also other routes. This to a certain extent compensates them for their hazardous duties. It must also be remembered that the total average remuneration of the employees of these categories would be higher as the majority of them have, since their scales of pay came into force, earned their annual increments.

76. The first ground urged by the Union in support of this demand is that the present scales of pay for the employees of the M. S. T. are lower than those granted by the State Transport authorities to its employees in Delhi and to Government employees in Assam and Tripura. Shri L. Achaw Singh, M. P. the President of the Union, who gave evidence at the hearing (W.W 1) stated that in reply to a question put by him in the Lok Sabha on 23-8-1957, with regard to the pay scales and allowances for Government employees in Assam, Tripura and Manipur, he was supplied with a comparative statement by the Ministry of Home Affairs and he produced the relevant parts of that statement (Exhibits W(1) and W(2)). He also produced the scales of pay, allowances etc. paid by the Delhi State Transport Authorities to its employees as stated in a printed official publication of that authority. (Exhibits W(3) and W(4)). The figures regarding the dearness allowance paid by Delhi Transport Authority were collected by the witness from a typed schedule supplied to him. The Union has also referred to the report on the enquiry conducted by the Labour Bureau of the Government of India into the labour conditions in the Public Motor Transport in India, appearing in the August 1957 issue of the Indian Labour Gazette and it has relied upon the higher scales of pay hence granted by some of the bigger state to the employees in Public Motor Transport.

77. Now one of the principles governing wage fixation is what is known as the industry cum region principle. As laid down by the Hon'ble Supreme Court in the case of the Express Newspapers (Private) Limited and another Versus Union of India and others (A. I. R. 1958 S. C. 578), in fixing the minimum wages, one of the factors which a Tribunal must take into account is the prevailing rates of wages for the same or similar employment in the same or neighbouring localities. On that principle it would be quite impossible to take into account the scales of wage being paid in the Public Transport industry at Delhi or even for a matter of that what is paid to Government Servants in Assam and Tripura. The Union has not shown what are the scales of pay being paid to the employees of the other Transport services in Manipur Administration area. The fair basis to adopt therefore would be to see what are the scales of pay being paid to the employees in the other departments of Manipur Administration. I cannot lose sight of the fact that the employees of the M. S. T. are Government servants. In adjudicating an industrial dispute of workmen in an industry carried on by Government, the scales of pay paid to other Government Servants in the same region, must be taken into account. The Manipur Administration has several other departments which are functioning at Imphal and the scales of pay and rate of dearness allowance paid to the employees of the M. S. T. are not lower than the scales of pay paid to like classes of employees in those departments. If the scales of pay of the employees of the M. S. T. were to be increased, there would be the inevitable repurcussion in the other departments of the Administration. No wage fixing authority can possibly ignore that eventuality.

78. It was next sought to be argued by the Union that a revision of the existing pay scales was justified because there had been a rise in the cost of living in Manipur State and the present wages of the employees were inadequate to meet their essential requirements. Now there is no cost of living index or consumer price index number worked out either for the

working or middle class for the Manipur area. The Union's case was that on the prevailing prices of essential commodities, the employees of the M. S. T. were not on their present wages even able to meet their food requirements on the basis of the norms recommended by the Nutrition Advisory Committee. The Union at the hearing examined two witnesses - one Shri Thoton Singh (W.W 3) a local Grocer, who produced a list of the prevailing prices of essential commodities in his shop, and the other Shri Haobijum Shyamkishor Singh (W.W. 4), who produced a list of the goods which he had purchased on 22-4-1959 for prices mentioned against each item. But I may say that this evidence was so unsatisfactory, that the Union itself did not at a later stage seek to rely upon it. On the other hand, the M S. T led the evidence of Jogendra Singh (E. W. 1), who is the marketing Inspector in the Office of the Deputy Commissioner at Imphal. He has to prepare a fortnightly statement of the prices of essential commodities at Manipur and has to submit the same to the Chief Secretary and Statistical Officer Manipur Administration. He stated that the preparation of such a fortnightly statement had commenced from October 1958 and he produced the statements which he had prepared for ten fortnight from fortnight ending 15-10-1958 to the fortnight ending 30-4-1959 (Exhibit E-28 series). These statements show that whilst during this period there have been periodical rises in the prices of certain items of commodities included in those statements, there have also been periodical falls in their prices and prices of certain items have remained stationary. From these statements it is impossible to work out what has been the rise in the cost of living at Manipur, since October 1958. The union, however, sought to argue that each adult consumption unit at Imphal at present requires Rs. 50-31 Np. per month as the cost of diet alone on the basis of the recommendation of the Nutrition Advisory Committee. It has claimed that its calculations were based on the fortnightly report of market prices ending 15-4-1959 as prepared by the office of the Deputy Commissioner's office, Manipur. It has, however, taken the prices of certain commodities not included in the Government report at prices which according to it are prevailing in the local market. On that basis the Union has argued that the cost for diet alone of a family consisting of 3 consumption units in Manipur would be Rs. 151·02. If the cost of food were to be taken as being say 50% of the total budget of a family of 3 consumption units, then we get the starting figure of over Rs. 300 as being requirements per month for an average family of 3 consumption units in Manipur which is an impossible statement to accept. The figure is so much higher than what has been found to be the requirement of standard family of 3 consumption units by Wage Boards for other bigger and costlier cities, as to make it impossible to be accepted. It must also be remembered that a rise in the cost of living is ordinarily neutralised, and that too not fully, by an increase in the dearness allowance and not by changing existing pay scales, particularly when they have been recently revised as in this case.

79. The Union's demand is for a lump sum or ad hoc increase of Rs. 10/- per month in the existing basic pay of each employee. In the case of Ganesh Flour Mills Co. Ltd and their workmen (1955 L. A. C. 538) and Modi Lantern Works and their workmen (1955 L. A. C. p. 456), the Labour Appellate Tribunal has deprecated the grant of demands for ad hoc increases in existing wages. The Union in its written statement has suggested that the minimum wage should be raised by Rs. 10/- and existing scales of pay be maintained by granting similar increases in respect of all grades and scales, but this again amounts to nothing more than a demand for granting an ad hoc increase in the existing scales of pay of each employee irrespective of the category unskilled, semi skilled or skilled, to which he belong. Such a demand is both un-scientific and impracticable to grant.

80. For the reasons stated above, demand No. 17 is rejected.

81. In the result on issue No 3 I make an award as stated above on each of the 17 demands forming part of that issue.

82. This Award is submitted to the Chief Commissioner, Manipur Administration, Imphal, under Section 15 of the Industrial Disputes Act, 1947 (Act XIV of 47).

83. Before I take leave of this reference, I must express my thanks for the kind and cordial treatment which I received during my stay at Imphal at the hands of the representatives of both the parties to the dispute and for the efforts which they made to make the stay of myself and of the members of my staff comfortable during our sojourn in their beautiful country.

AWARD.

By Manipur Administration notification No. CS/Misc/59/I/S(D), dated 23rd February 1959 made in exercise of the powers conferred by Section 7A of the Industrial Disputes Act, 1947 (XIV of 47) read with the Government of India late Ministry of State's Notification No. 104-J dated 24-8-1950, the Chief Commissioner of Manipur Administration was pleased to constitute an Industrial Tribunal for the Union Territory of Manipur consisting of one Member and to appoint me as the Presiding Officer of that Tribunal with effect from 23-2-1959. By subsequent notification No. CS/Misc/59/II/S(L) dated 23-2 1959 made in exercise of the powers vested in the Chief Commissioner of Manipur Administration under Section 12(5) and Section 10(1)(c) of the Industrial Disputes Act, (by Corrigendum notification No. CS/Misc/59/II/S(L) dated 12-5-1959 the words and figures "Sec. 10(1)(d)" were substituted for "Section 10(1)(c)", read with the Government of India, late Ministry of States Notification No. 104J dated 24-8-1950, he was pleased to refer to me for adjudication the matters specified in the following schedule to the said notification (being the matters in dispute, or matters connected with or relevant to the dispute).

Schedule.

Whether the employees of the Manipur State Transport can give a notice of strike notwithstanding provisions of Section 4A of the Central Civil Services Conduct Rules 1955 ;

(2) Whether there is any industrial dispute in respect of all or any of the demands of the workers of the Manipur State Transport as mentioned in their Notice dated 9-2-1959 ;

(3) Whether the demands contained in the above mentioned notice are justified If so, what relief should be provided to the workmen concerned."

2. By Manipur Administration corrigendum Notification No. CS/Misc/59/II/8(L) dated 12-5-1959 published in the Manipur Gazette Extraordinary No. 21-E-16 of the same date, the words and figures, "Section 10(1)(c)" appearing in para 6 of the notification of the even number dated 23-2-1959, were substituted by the words and figures "Section 10(1)(d)." I may state that the representatives of the workmen at the hearing agreed to this corrigendum being issued and also agreed that the reference should be proceeded with on the written statements of the parties on record, without fresh notices.

3. The Manipur State Transport Workers Union (hereinafter referred to as the Union) which represents the workmen concerned in this dispute, filed the written statement of claim on 26 3-1059 and the written statement in reply on behalf of the Manipur State Transport was filed on 15 4-1959, after which the dispute was heard by me at Imphal between the 12th and 18th May 1959, on which latter date at the joint request of the parties, and accompanied by their representatives, I inspected the rest rooms of the workers at the Headquarters of the Manipur State Transport at Imphal and their stations at Kangpokpi, Mao, Kohima and the garage and office at Dimapur. Later, the parties supplied to me at Dhanbad certain documents and particulars, which were not available at the hearing at Imphal.

4. Before dealing with the demands on their merits it is necessary to state that the Manipur State Transport (hereinafter for brevity's sake referred to as the M. S. T.) was started in about 1948 by the old Ruler of Manipur State, but with the integration on 15 10-1949 of the former Manipur State the entire administration of Manipur, including the M. S. T., was taken over by the Central Government under the Manipur Administration order 1949, which was made in exercise of the powers conferred by Sections 2 and 3 of the Extra Provincial Jurisdiction Act 1947. With the taking over of the M. S. T. by the Central Government its employees became Government servants. The M. S. T. is a passanger cum goods service and operates on several routes, but the main route is the Imphal Dimapur route which covers a distance of about 134 miles, part of which is through the Naga Hills Territory. Since July/August 1957 the M. S. T. enjoys the monopoly of the passenger traffic between Imphal and Mao and it secured the postal mail contract in 1957. Besides, there are other public transport services operating in the Manipur Administration area.

5. The Union is a registered trade union and there is no doubt that the majority of the employees of the M.S.T. are its members. The Union, however, has not received recognition by Government as it has not applied for recognition under Section 28E of the Indian Trade Unions Act (XVI of 1926), evidently because its President Shri L. Achaw Singh, M.P. is not a Government employee. The Union has, however, stated that it did not consider an application for recognition necessary as virtually it is getting the benefits of recognition by Government. Be that as it may, it appears that on 2.2 1959, the Union made certain demands and raised an industrial dispute, with regard to which certain discussions took place between the management and the representatives of the Union on 5.2.1959. The discussions did not lead to a satisfactory solution, as recorded by the Administration's letter to the Union of that date (Exhibit W G). By Manipur Administration Notification No. XL/20/56 dated 4.2.1959 made in exercise of the powers conferred upon him by clause (vi) of Section 2 n) of the Industrial Disputes Act 1947, (Act XIV of 47), read with the Government of India late Ministry of States Notification No. 104J dated 24 8.1950, the Chief Commissioner of Manipur in the reqnirement of public interest, declared the M.S T. to be a public utility service for the purposes of the Industrial Disputes Act, 1947, for a period of six months from the date of that order. Thereafter, on 9.2.1959 the union gave notice under Sectition (1) of Section 22 of the Industrial Disputes, Act 1947 that it proposed to call a strike commencing from 23.2.1959 for the reasons stated in the annexure to the said notice, to which were annexed a list of the 17 demands which from the subject matter of issue No. 3 under reference [Exhibits W.H., H(1) and H(2)]. The union endorsed a copy of the strike notice to the Conciliation Officer, Manipur, who held discussions for several days with the representatives of the Administration and the Union, but as his efforts were not successful he submitted a failure report dated 21.2.1959 after which as stated earlier the present reference was made on 23.2.1959.

6. I now proceed to discuss the issues under reference.

Issue No. 1--Whether the employees of the Manipur State Transport can give a notice of strike notwithstanding provisions of Section 4(A) of the Central Civil Services Conduct Rules, 1955.

7. The management contends that the M.S.T. being a department for the Administration of Manipur, its employees are government servants of the Administration to whom the Central Civil Service (Conduct) Rules, 1955 apply, and as such they cannot under Rule 4A thereof, give a notice of strike. Rule 4A(1) of the Central Civil Service (Conduct) Rules 1955 provides as follows :—

> "Government Servants should not participate in any demonstration or resort to any strike in connection with any service matter."

The union in its written statement had argued that the Central Civil Service (Conduct) Rules has no application to the employees of the M.S.T. It has further argued that even assuming that the said rules are applicable they do not affect the workmen's right to go on strike in pursuance of an industrial dispute with the employees.

8 At the hearing before me on 13.5.1959 the learned Government Advocate appearing for the M.S.T. did not press a finding on this issue stating that the same appeared to be irrelevant in as such as the workmen in fact had not resorted to a strike. In view of this position it is not necessary to decide this issue. I may, however, state that Shri Mukherjee the learned counsel for the union relied upon the judgment of the Patna High Court (V Ramaswami, C.J. and R K. Choudhry J.) in the case of Kameshwar Prasad and others, Petitioners, Versus The State, of Bihar and another, Opposite parties, (A.I.R.1959 (Patna) para 187 at page 192). One of the questions in that case was whether the restrictions imposed by Rule 4A of the Bihar Government Service (Conduct Rules (1956), which is in terms with the provisions of Section 4A of the Central Civil Service (Conduct) Rules 1955, were reasonable restrictions or whether these restrictions were unconstitutional as violating any of the guarantees under Article 19 of the Constitution. Their Lordships held that the restrictions placed by the Rule 4A were reasonable restriction and therefore not unconstitutional. Their Lordships, however, held that a restricted interpretation should be put on Rule 4A so as to make it constitutional, and the rule must be constructed as having application only to such Government Servants a are not governed by the provisions of the Industrial Disputes Act, 1947. Their Lordships observed that it followed that if a Government Servant is a workman within the meaning of Section 2(s) of the Industrial Disputes Act, 1947, rule 4A will not have any application to him.

9. It is clear from what I have stated earlier that the Manipur Administration itself considered that the Industrial Disputes Act, 1947 applies to the employees of the M.S.T. This reference has been made by the Manipur Administration under the provisions of Section 12(5) and Section 10(1)(d) of the Act. By notification No. IL/20/56 dated 4-2-1959, referred to earlier, made in exercise of the powers conferred by clause (vi) of Section 2(n) of the Industrial Disputes Act 1947, the M. S. T. was declared to be a publice utility service for the purposes of Industrial Disputes Act, 1947. It is clear from the various notifications issued and actions taken by the Manipur Administration that it has applied the provisions of the Industrial Disputes Act to those employees of the M. S. T., who are workmen as defined by section 2(s) of the Act. It appears therefore, that the provisions of Section 4A of the Central Civil Services (Conduct) Rules, 1955, would not apply to those employees of the M. S. T. who are workmen as defined by Section 2(s) of the Act. However, in view of the learned Government Advocate not having pressed this issue, any further consideration of this issue is not called for.

Issue No. 2.—Whether there is any industrial dispute in respect of all or any of the demands of the workers of the Manipur State Transport as mentioned in their Notice dated 9-2-1959.

10. As stated earlier, along with the strike notice of 9-2 1959, the union had submitted as many as 17 demands whose justification forms the subject matter of issue No. 3 under reference. The union in its written statement has contended that there is an industrial dispute in respect of all the demands contained in the said strike notice. The Administration in its written statement has submitted that, "all the demands contained in the memorandum dated 2-2-1959, in particular, Demand No. 1, 2(b), 4, 5, 7 and 14 and 17 are not the subject matters of "Industrial Disputes, within the meaning of Section 2(k) of the Act." Now, Section 2(k) of the Act defines an industrial dispute as follows :—

"Industrial dispute", means any dispute or difference between employers and employees or between employers and workmen, or between workmen and workmen, which is connected with the employment or non-employment of the terms of employment or with the conditions of labour of any person."

11. At the hearing Shri Mukherjee the learned counsel for the union conceded that Demand No. 1 which relates to the claim for reinstatement in service of the former Manager of the M.S.T. namely Shri K. H. Buda Singh, did not form the subject matter of an industrial dispute as defined by Section 2(k) of the Act, and he withdrew that demand conceding that Shri K. H Buda Singh was not a workman as defined by Section 2(s) of the Act. He, therefore, withdrew the demand without prejudice to such other rights Shri K. H. Buda Singh may have in the matter.

12. With regard to the remaining sixteen demands, I am satisfied that they are all in connection with matters relating to the terms of employment or with the conditions of labour of these employees of the M. S. T. who are workmen as defined by Section 2(s) of the Industrial Disputes Act. These demands, therefore, are subject matters of an Industrial dispute as defined by section 2(k) of the Industrial Disputes Act, 1947, which applies to the M. S. T. which is an industry as defined by Section 2(j) of that Act.

13. The learned Government Advocate at the hearing in support of the first contention, argued that as the employees of the M. S. T. were Government Servants, they could not raise an industrial dispute, under the Indurtrial Disputes Act, 1947, which did not apply to Government Servants.

14. It is true that the Industrial Dispute Act 1947 does not apply to all Government Servants, but as held by the High Court of Bombay in the case of the Hospital Mazdoor Sabha Versus the State of Bombay (1957-I.L.L J.p 55) if the Government carries on an industry as defined by section 2(j) of the Industrial Disputes Act 1947, that Act would apply to such an industry. That case related to the retrenchment of two employees of the J. J. Hospital at Bombay who were admittedly Government Servants. They were retrenched from service without the provisions of Section 25F of the Industrial Disputes Act 1947 having been followed. It was contended on behalf of the Government of Bombay, as it is contended here, that the Industrial Disputes Act 1947 did not apply to the employees of the J. J. Hospital as the Government of Bombay by its activity of conducting the J. J. Hospital was not running any 'industry' as defined by section 2(j) of the Act which is in the following terms :—

"2.(j). "Industry" means any business, trade, undertaking, manufacture or calling of employers and includes any calling, service, employment, handicraft, or industrial occupation or advocation of workmen;"

Their Lordships of the Bombay High Court in negativing the contention observed as follows :—

"There is also no reason, why, unless the Act expressly so provides, Government should be given immunity from the provisions of this Act .. ..

If there is an activity which can be undertaken by a private agency and the same activity is carried on by Government, then it is difficult to understand why different principles should govern that activity when it is carried on by private agency or when it is carried on by Government. If that proposition were to be accepted, then if a private agency carried on a particular activity, it would be governed by the Industrial Disputes Act. If that activity was undertaken by Government, the Industrial Disputes Act would have no application. If the employees employed by the private agency doing the same activity should have the rights given to them under the Act, is there any reason in principle why they should be deprived of those rights when that activity is taken over by Government ? The result of accepting this contention would be indeed very serious. One important aspect of a Welfare State is the constant and increasing inroad of the public sector upon the private sector. More and more activities which in the past were considered to be essentially private activities are taken over by Government, and therefore this extraordinary result would be achieved that the more important the activities of Government become and more it seeks to achieve that objective of a complete Welfare State, the less rights labour would have in such a State. Therefore, in our opinion, the test we should lay down in order to determine whether a particular activity undertaken by Government is an "industry" would be to consider whether if that activity had been undertaken by a private agency, would it have been an industry to which the Act applied. If the Act had applied to that activity, then in our opinion, it is entirely immaterial whether that activity is undertaken by Government."

28. Demand 2(a) is for setting up of an Appointment or Selection Board for recruitment to the M. S. T. and under demand No. 2(b) the union claims representation on the Board.

Under Demand No. 3 the union wants a Promotion Committee to be set up to deal with questions of promotion on the basis of seniority and merit.

29. On 2-2-1959 a Departmental Committee for Recruitment/Promotion was reconstituted as per Manipur Administration Service Branch Office Memorandum No. CS/DPC/58—dated 2-1-1959 (Exhibit E-2). The Committee for the M. S. T. now consists of the General Manager, M. S. T. and two Extra Additional Commissioners, Manipur Administration, with which the union has expressed its satisfaction by its letter dated 30-5-1959 (Ex. W. 1). It would thus be seen that the demand Nos. 2 and 3 of the Union for setting up of the Appointment, Selection and Promotion Board for the M. S. T. has since been met. The union, however, under demand No. 2(a) claims that one representative of the Union be included in the Committee. Considering that this is a Government managed department and recruitment and promotion are governed by Government Rules, there is no scope for appointment of a representative of the union on that Committee. The reconstituted recruitment/promotion committee can well be left with the task of selecting proper candidates and to decide the questions of promotion on the basis of seniority and merit. The demand of the union for a representation on this Board is therefore rejected. The Union's grievance, however, is that even after constitution of the Committee for Recruitment/Promotion, appointment on two occasions were made by the General Manager of the M. S. T. without the Committee meeting. The Union has drawn the attention of the Administration to this by its letters dated 30-4-1959 (Exhibit W-I) and 1-5-1959 (Exhibit W-J). The union's other grievance is that even now in the matters of promotion to higher posts and appointments to permanant posts in the M. S. T. the existing employees of the M. S. T. are not being given a fair chance and it also complains that they are not even informed when these vacancies are filled in. I have had the benefit of hearing the explanation of the General Manager of the M. S. T. on these two grievances of the workmen and it appears to me that there is justification for these complaints of the Union and I would, therefore, recommend to the Administration to insist that in future all recruitments and Promotions are made after consulting the Committee and after the existing employees are informed of the vacancies to be filled in.

Demand No. 4 : The arbitrary grant of an advance increment without any consideration of the services of the employees promotes favouritism and unfair and unhealthy practice on the part of the authority. On the other hand, withholding of increments and promotion is adopted as vindictive measure. These practices should be stopped.

30 The Union's complaint is that advance increments have in the past been granted on the basis of favouritism and discrimination which has created great resentment among the employees. The union also alleges that the increments have also been arbitrarily withheld without adequate cause. The union has urged that to avoid these undesirable practices, no advance increments should be granted and no increments should be granted and no increments should be withheld without the prior approval of the Recruitment/Promotion Committee. The management in its written statement has denied that advance increments have ever been granted on the basis of favouritism and discrimination. It is submitted that advance increments whenever granted have been given for good work or as an incentive for extra responsibility undertaken and as recognition of extra qualities which an employee possesses, which is based on well recognised principle of good administration in any service. At the hearing evidence was led on this subject. It appears that so far there have been only cases of two employees who were granted advance increments. Shri R. L. Sethi, the General Manager of the M. S. T. has explained that the advance increments were granted to those two employees for good work or as an incentive for extra experience and recognition of extra qualities which these employees possessed. There has been only one instance when increments were with-held and that was in the case of one Suri H. G. Singh (W. W. 2) who gave evidence at the hearing. It appears that this particular workman had received 5 advance increments and had lost 2 increments by way of punishment for a certain misconduct. In Government Service cases justifying grant of advance increments or of with-holding increment are governed by the Service Rules. The only recommendation that I should make is that in all such cases those rules should be strictly adhered to.

Assistant Secretary, (M. C. T.) Manipur Administration, Imphal (Exhibit E-27) when making out a case for the sanction by the Government of India on a permanent basis of the post of an Officer on Special Duty or General Manager for the M. S. T. The picture of the working of the M. S. T. presented in that letter is quite different from the picture presented by the Profit and Loss account statement. In that representation Shri R. L. Sethi has stated :—

"I may also add, in this connection, that our passenger and goods services are on the increase every year covering new routes, and the passenger services plying between the rail head (Dimapur-Manipur Road) and Imphal have been completely monopolised by the M. S. T. We have also since August, 1957 undertaken the carrying responsibility of Mail services of the post and telegraph department on four routes, which of course gave us satisfactory financial gains."

25. Shri Sethi in his evidence, however, stated that the figure of the receipts for the year 1957-58 given by him in his said letter (Exhibit E- 27) was incorrect and the correct figure of the income for that year was that shown in the profit and loss account for that year but he did not pause to explain how he had come to make that mistaken. From what is stated above, I am inclined to the view that the M. S. T. can be a source of considerable profit and that if it has shown losses in the past years it has been due to defalcations and disturbances and such other extraneous causes, and not because the service as such is not a profitable venture. In my opinion, this is not a case where the management would be justified in opposing the reasonable and justifiable demands of the workmen on grounds of financial incapacity to meet them.

Issue No. 3 :—Whether the demands contained in the above mentioned notice are justified. If so what relief should be provided to the workmen concerned.

26. The demands referred to in this issue are the 17 demands submitted by the Union in its notice dated 9-2-1959. I propose to deal with the demands in their seriatum order.

Demand No. 1 :—The abolition of the post of the Manager, Manipur State Transport and sudden termination of the services of Shri Kh. Budha Singh has shocked all the employees of the department. It is the higest act of injustice on the part of the Government to terminate the services of a permanant incumbent without any due and proper notice and appoint a temporary officer to the post of General Manager, Manipur State Transport. The repeated extension of the services of an inexperienced hand in this line and a retired personnel as Head of the Department and his appointment as General Manager is detrimental to the public interest. We strongly believe that it is also an attempt on the part of the administration to deprive the children of the soil of any chance of promotion and appointment to the post of General Manager. The hasty action of the Government has done a deadly blow to the sense of security of service of all employees. This action should at once be reviewed and the former Manager should be reinstated and appointed as General Manager as he is the most suitable person for the post.

27. As stated earlier, this demand has not been pressed by the Union and the same is therefore dismissed as withdrawn without prejudice to whatevere other claims and remedies which Kh. Budha Singh may have or be entitled to.

Demand Nos. 2(a) and (b) :— 2 (a) Appointment in the Manipur State Transport has been very irregular. Arbitrary appointment in the workshop, running staff, and office staff has been made by the Officer on Special Duty. Representations has been made by the Union on several occasions for the setting up of an appointment or selection board for the Department, but without any effect. A Board should be duly constituted for the purpose without delay.

2(b) : In the Board one representative of the union be included.

Demand No. 3 :—Promotions are the other source for the frustration and disappointment to all categories of employees in the Department. Arbitrary and whimsical exercise of power by the Head of the Department at the time of granting promotion is condemned. A promotion Committee should be set up to deal with promotion. Both seniority and merit should be considered as criterion for granting of promotion.

18. Rules 2(f) and (g) of the Industrial Disputes (Central) Rules, 1957 also indicate, as rightly pointed out by the Conciliation Officer in his report, that the Industrial Disputes Act, 1947 would apply to Government Servants who are workmen as defined by Section 2(s) of the Act employed in an industry, as defined by section 2(j) of the Act, carried on by the Central Government.

19. Apart from this, it is quite clear that the Manipur Administration itself considered and has acted on the footing that the industrial Disputes Act 1947 applies to the employees of the M.S.T. This is borne out by the fact that it has referred this dispute to this Tribunal in exercise of the powers vested by Section 12(5) and 10(1)(d) of the Act and issued its Notification dated 4.2.1959 made under Section 2(n),(vi) of the Industrial Disputes Act, 1947 declaring the M.S.T. to be a public utility service for the purposes of the Industrial Disputes Act 1947. Under Section 10 of the Act it is for the Government to determine whether an industrial dispute exists or is apprehended and whether to refer or not to refer such industrial dispute to an industrial tribunal under the provisions of that section. In my opinion, the Government cannot after having referred an industrial dispute in exercise of the powers conferred upon it by the Act, refer to the Tribunal the question whether a particular set of demands by the workmen constitutes an industrial dispute or not. The position of the Administration in this regard seems to be anamolous.

20. In my opinion, the demands Nos. 2 to 17 (both inclusive) under reference refer to terms of employment and conditions of service of such of the employees of the M.S.T., which is an industry as defined by Section 2(j) of the Act, who are workmen as defined by Section 2(s) of the Act and, therefore, this is an industrial dispute as defined by Section 2(k) of the Act. However, in adjudicating upon these demands, on their merits the Tribunal cannot overlook the fact that the workmen concerned in the dispute are Government Servants governed by the various service rules and regulations applicable to Government Servants.

21. Before dealing with the demands on their merits, I should like to deal briefly with the financial position of the M.S.T.

22. As stated earlier the M.S.T. was started in 1949 and today has a fleet of in all 73 vehicles, out of which 25 are passenger buses and 38 are trucks. It operates on several routes and in all has 319 employees in its six sections, of which only 88 posts are permanent and the rest are either temporary or casual.

23. The management at the hearing pleaded that the M.S.T. was not in a sound financial position. It has stated that between 1949 till the year ended 31.3.1958, the working of the M.S.T. had shown a let loss of Rs. 4,16,972. The result of the working of the M.S.T. for each year since 1949-50 to 1957-58 as shown in the mangement's statement (Exhibit E-29) was as follows :—

Year.	Net loss.	Net profit.
1949-50	Rs. 8,943	—
1950-51	—	Rs. 9,126
1951-52	—	28,114
1952-53	77,788	—
1953-54	27,929	—
1954-55	2,33,299	—
1955-56	—	96,724
1956-57	2,28,343	—
1957-58	—	25,366,

24. These figures were also deposed to by the Accountant of the M.S T. Shri Beny Bhushan Deb (E.W.2). It was, however, elicited in his cross examination, that the P & L accounts for 1954-55 uptil 1957-58 were prepared in 1958-59 and submitted for audit only on 17.2.1959. It was also admitted by the witness that the losses for the year 1954 55 (Rs. 2,33,299) were due to "huge amount of earnings not having been accounted for", and that the loss incurred in 1956-57 was primarily due and the closure of the Dimapur-Imphal route for some months of the year on account of damage caused to the vehicles of the company during the Naga disturbances in that year, otherwise the working would have shown a profit. It was further revealed in cross-examination of this witness that the figures of the receipts for the year 1957-58 were shown by Shri R.L. Sethi, the General Manager of the M.S.T., at a figure higher by Rs. 82,000 (at Rs. 9,91,767-67 np) than what is shown in the profit and loss accounts for that year. This statement was made by Shri Sethi in a letter dated 17.3.1959 which he had addressed to the

Their Lordships also observed :—

"The fact that the Government is not making any profit out the hospital, the fact that all the employees are Government servants are, in our opinion, undoubtedly beside the point. In every industry run by Government the employees are bound to be Government Servants. In every industry run by Government the profit motive must be absent : the only profit that Government should think of making is the welfare of its citizens. Therefore, the true test is not the absence of any commercial element in the running of this hospital, nor the fact that the servants are Government Servants, but the test is, as we might repeat, whether the running of a hospital is a function so essential to Government that it can only be discharged by Government and cannot be discharged by any private agency."

15. His Lordship Justice Chandrasekara Iyer of the Supreme Court in the case of D.N. Banerjee Versus P.R. Mukherjee (1953-I-L-L J.p 200) observed that it is necessary to give the terms employed in the Industrial Disputes Act as wide an import as reasonably possible and considering the definition of 'industry' His Lordship held that the definition was apparently intended to include within its scope what might not strictly be called a trade or business venture. His Lordship posed the question :

> "If the public utility service is carried on by a Corporation like a Municipality which is the creature of a Statute and which functions under the Limitations imposed by the Statute does it cease to be an industry for that reason'".

I may pose the same question here as their Lordships of the Bombay High Court posed in the Hospital Mazdoor Sabha's case :—

"Does the fact that the M S T. is carried on by Government make it cease to be an industry merely because of that reason?".

The answer must be in the negative.

Their Lordships of the Bombay High Court further observed :

"Immunity is only given to Government when it is administering true essential Governmental authority.. .....The relevant question is not that the State was the employer but that State was engaged in an industry as defined by the Act." (1957-I-L.L.J.p.61).

16. In the instant case there can be no doubt that in running the M S.T. the Manipur Administration is conducting an industry as defined by section 2(j) of the Act. This was not seriously contested by the learned Advocate, who appeared for the M.S.T. He, however, referred to the decision of the Hon'ble Supreme Court in the case of D.N Banerjee Versus P.R. Mukherjee (1953-II-LL.J.p 200) to which I have referred earlier as he said out of "a abundant caution". That decision if anything does not support this contention as pointed out by their Lordships of the Bombay High Court in the case of the Hospital Mazdoor Sabha Versus the State of Bombay (1957-I.L.L.J.p.61). The Scheme of the Industrial Disputes Act does cover industrial disputes in industries conducted by the Central Government. Section 2(g) of the Act defines the term 'employer' as follows :—

"Employer" means—

(i) in relation to an industry carried on by or under the authority of any department of the Central Government of a State Government, the authority prescribed in this behalf or where no authority is prescribed the head of the department ;

(ii) in relation to an industry carried on by or on behalf of a local authority, the Chief Executive Officer of that authority."

Clearly, therefore, section 2(g) of the Act contemplates an industry like the M. S. T. which is carried on by the Central Government.

17. The definition of the term 'workman' under Section 2(s) of the Act would cover employees in an industry carried on by the Government. The only persons not included in the definition are the persons mentioned in clause (i) and (ii) thereof namely :—

(i) who is subject to the Army Act, 1950 or the Air Force Act 1950 or the Navy (Discipline) Act 1934 or

(ii) who is employed in the police service or as an officer or other employees of a prison.

As the employees of the M. S. T. do not fall in these excepted categories they are undoubtedly workmen as defined by Section 2(s) of the Act.

Demand No. 5 :—Confirmation to the respective posts of the employees has been postponed and delayed and no consideration to the length of service of the respective employees is made. The deprive the employees of their legal rights and so all the employees who have contributed considerable length of service should be given confirmation.

31. In support of this claim the Union has stated in its written statement that the majority of the workmen of the M.S.T. are still temporary and that some of the employees who have been working since the inception of the service have not yet been made permanent. It has pointed out that the M.S.T. is expanding its operation. It is stated that there is no justification for not making the present incumbents permanent and the Union has demanded that all employees who have put in 3 years service should forthwith be made permanent.

32. The management in its written statement in reply has stated that the M.S.T. as a whole is a temporary department. The Government of India had sanctioned only a few permanent posts which may be filled up by permanent employees, in case of vacancies occurring in permanent posts the Promotion and Appointment Committee considers the case of temporary employees to be appointed to those vacancies. It is submitted that a reference has been made to the Government of India to examine whether or not the M.S.T. would be declared a commercial undertaking, and the question of creating more permanent posts can only be taken up after the decision of Government on this point.

33. At the hearing Shri R.L. Sethi, General Manager, of the M.S.T. in his evidence stated that though the whole department was temporary there are 88 permanent posts in the M.S.T., and that representations had been made to Government of India to make the department permanent. Shri Sethi pointed out that in view of the fact that the M.S.T. was incurring the Government of India further financial commitment must be scrutinised. In his letter dated 2.1.1959 (Exhibit E) to the secretary of the Union for the Assistance Scheme of Labour Administration, pointed out that excepting one employee in most of the categories of the permanent posts have been sanctioned in service and that in the case of the Conductors, which is the largest category by the Departmental Recruitment Promotion Committee, which considers the case of the Assistant Managers for the Administrative Officer, that the Conductors are not appointed in the Rules. The Rules apply to the employees of the M.S.T. and that the posts are temporary, permanency is sanctioned by the Government of the State and that the posts and funds at the disposal of the administration, that Manipur is a union territory over the administration of which the Central Government is answerable to the Parliament.

34. In non-government industrial concerns the Tribunals have granted demand for a workman being made permanent after he has put in three years service. But these considerations cannot necessarily apply to an industrial establishment run by government where employees are Government Servants and who were, they accepted service, are expected to be governed by rules and regulations applicable to Government servants. For the purpose of making a person the department permanent or not or in other words would be entitled to the benefits and important considerations not exercised by the employer. With regard to the scheme proposed for its better control and management by the Union, the matter is under consideration of Government. In view of this position I am unable to accept the demand and so I am constrained to reject the demand.

35. There is however, one point to which I would like to refer and that is the hearing that as yet no temporary employees of the M.S.T. has been given permanency though many of them have put in more than three years service. As I have stated earlier they are governed by the Central Civil Services (Temporary Service) Rules, 1965, which whereof contains provisions for granting a Government Servant who has put in more than three years continuous satisfactory service, quasi permanent status. Since the M.S.T. is a permanent department I am of the opinion that all the employees of the M.S.T. who have put in more than three years service should be given the benefits of the Central Civil Service (Temporary Service) Rules, 1965 declared quasi permanent.

36. I may as well here deal with demand No. 10 where the submission was made regarding the commercial character of the M.S.T. The contention of the Union is that the M.S.T. is governed by departmental rules, which are quite different from those

Demand No. 5 :—Confirmation to the respective posts of the employees has been postponed and delayed and no consideration to the length of service of the respective employees is made This deprives the employees of their legal rights and so all the employees who have contributed a considerable length of service should be given confirmation.

31. In support of this claim the Union has stated in its written statement that the majority of the workmen of the M. S. T. are still temporary and that some of the employees who have been working since the inception of the service have not yet been made permanent. It has pointed out that the M. S. T. is expanding its operations. It is argued that there is no justification for not making the present incumbent permanent and the Union has demanded that all employees who have put in 3 years service should forthwith be made permanent

32. The management in its written statement in reply has stated that the M. S. T as a whole is a temporary department. The Government of India had sanctioned only a few permanent posts which have been filled up by permanent employees. In cases of vacancies occurring in permanent posts, the Promotion and Appointment Committee considers the cases of temporary employees to be appointed to these vacancies. It is submitted that a reference has been made to the Government of India enquiring whether or not the M. S. T. would be declared a commercial undertaking and the question of creating more permanent posts can only be taken up after the decision of Government on this point.

33 At the hearing Shri R.L. Sethi General Manager, of the M.S.T. in his evidence stated that though the whole department was temporary there are 88 permanent posts in the M.S.T., and that representations had been made to Government of India to make this department permanent. Shri Sethi pointed out that in view of the losses that the M.S.T. was incurring, the Government feel that further financial commitments must be restrained. In his letter dated 6.2.1959 (Exhibit E-3) to the Secretary of the Union, the Assistant Secretary (L), Manipur Administration, pointed out that excepting one employee the rest of the employees in the permanent posts have been confirmed in service and that the case of the outstanding employees would be considered in due course by the Departmental Recruitment/Promotion Committee. At the hearing the learned Advocate for the Administration pointed out that the Central Civil services (Temporary service) Rules 1949 apply to the employees of the M.S.T and that as this is a temporary department, permanency is governed by the exigencies of the service and the financial position and funds at the disposal of the administration; that Manipur is a deficit territory over the administration of which the Central Government is annually spending lakhs of rupees.

34 In non-government industrial concerns the Tribunal have granted demand for a workman being made permanent after he has put in even less than 3 years service. But those considerations cannot obviously apply to an industrial establishment run by Government whose employees are Government Servants and who when they accept Government service elect to be governed by rules and regulations applicable to Government Servants. The question of making a particular department permanent or not or as to when it should be made permanent involves several important considerations, not excluding the financial aspect. With regard to the M.S.T. there is a proposal for its being converted into a commercial undertaking and the matter is mentioned above is under consideration of Government. In view of this position I do not think I would be justified in granting the demand

35. There is, however, one point to which I should like to refer. It was told at the hearing that as yet no temporary employee of the M.S.T. has been declared quasi-permanent, though many of them have put in continuous service for more than even two years. As I have stated earlier they are governed by the Central Civil Services (Temporary Service) Rules, 1949, Rule 3 whereof contains provisions for declaring a Government Servant, who has put in more than three years' continuous satisfactory service, quasi-permanent. I do not know what the result of declaring the M. S. T a permanent department is decided, the Administration will endeavour to see that of the temporary employees of the M. S. T. who fulfil the requirement of Rule 3 of the Central Civil Services (Temporary Service) Rules, 1949, declared quasi-permanent.

36. I may as well here deal with demand No. 10 which is that a definite declaration must be made regarding the commercial character of the M. S. T. The ground urged in support is that the M. S. T. is governed by departmental rules, which are quite inconsistent with the rules

and practice in commercial undertakings. This subject is under consideration of the authorities and I am of the opinion that in the meanwhile this Tribunal would not be justified in directing that the M. S. T. should be declared as a commercial undertaking. This demand is therefore rejected.

Demand No 6 :—At present the daily allowance for over-night haltage is Re. 1/- and is quite inadequate to cover the daily incidental charges. For all categories of employees the daily allowance should be increased to a minimum of Rs. 2/- whenever an over-night halting has to be made.

37. The Union in support of this demand has stated in its written statement of claim that at present a sum varying between Re. 1-2-0 and 0-14-0 is paid as daily allowance for over-night haltage. In support of its demand for an allowance of Rs. 2/- for over-night haltage for all categories of employees, the union has urged that the existing rates of daily allowance are inadequate to meet the expenses which an employee of the M. S. T. has to incur when he has to spend a night away from home nor does it compensate him adequately for the additional [illegible] The union has [illegible] accommodation [illegible] to stay [illegible] allowance [illegible] The [illegible] introduction of a [illegible] accepted. It is now proposed to give trip allowance not only to drivers and cleaners but also to conductors on the Imphal Dimapur route and also extend this benefit to other routes at rates which appear to be adequate. But before trip allowances at the proposed rates can be granted, sanction of the Government of India is necessary. I have not the least doubt that the Government will consider favourably the recommendation of the Administration and would strongly recommend that trip allowance at the proposed rates be sanctioned from 1-3-1959.

Demand No 7 : On festival days or public holidays employees have to work without any extra allowance. They should be given allowance for such extra work.

40. The union in its written statement of claim has stated that the employees in the workshop are called upon to work half the day on public holidays whereas the running staff have to work as usual for the full day. The clerical staff, however, enjoy these holidays. The

union has fairly conceded that transport services have to be maintained even on festival and public holidays and therefore the traffic staff cannot claim public and festival holidays. It has, however, claimed that they should be paid a compensatory allowance at the rate of three times their daily wages on the 31 different public and other holidays in the year observed in Manipur. The union has also claimed that this demand should be granted with retrospective operation from 1958.

41. The management in its written statement has opposed the demand by citing the replies received by it from Bombay and Madras State Transport services [illegible] the practice followed all over India is that the employees of traffic section get no extra remuneration for working on public and festival holidays. [illegible]

42. [illegible]

43. With regard to the workshop employees [illegible] holidays shall be entitled to an additional half day's wages (basic wages and Dearness Allowance) as a compensatory allowance. I further direct that the benefit shall be granted with effect from January 1959.

Demand No. 8: There are no weekly holidays for the running staff; such holidays should at once be sanctioned.

44. The Union in its written statement has admitted that by order dated [illegible] December 1958 the running staff have been allowed one paid holiday each week. The complaint of the union, however, is mainly with regard to the manner in which the weekly holiday is granted to the running staff. According to the union no weekly holiday roaster is prepared for the running staff with the result that they do not know at the beginning of the week, which would be their

weekly off day. Their complaint appears to be that the running staff is sometimes informed only a day in advance of their appointed weekly off day, and are thus prevented from making the best use of it. The Union, therefore, demands that a holiday roaster should be prepared and hung up at a prominent place of the establishment for the information of the running staff and there should not be any deviation from that roaster, except under emergent circumstances.

45. The management's case is that because of the very nature of their duties employees in the out-agency and the traffic section and workshops cannot enjoy a uniform weekly holiday. The weekly holidays are therefore granted to workmen by rotation. This appears to have been satisfactorily organised in the out agency and the workshop sections. With regard to the traffic section the management's explanation was that the fixing of weekly off days for the traffic staff is in the process of being properly organised. It is pleaded that as the "in charge" are inexperienced people there has been some confusion over intimating well in advance the day on which each member of the running staff would get his weekly off day.

46. After hearing the evidence and the arguments of the parties on the point, I am satisfied that the union has a justifiable grievance with regard to the manner in which the weekly off days are granted to the running staff. The union's demand for the preparation of a roaster intimating when each member of the running staff would enjoy his weekly off day is justified and I therefore direct that a holiday roaster should be prepared and hung in prominent places a week in advance and that the same should be adhered to except in cases of real exigencies of service.

Demand No. 9 : – At present there is no provision for overtime allowance for employees Extra allowance for overtime work must be given.

47. The union in its written statement has stated that no overtime is paid either to the workshop employees who are governed by the Factories Act or to the running staff The employer's contention is that no overtime is paid because no overtime is worked, whilst the union contends that both in the workshops as well as all outside employees have to work beyond the scheduled hours of work. The union has pointed out that at present only the starting hour of the work is recorded but not the hour when the work ends and it is claimed that the management should be directed to record the hour when each workmen's duty ends so that the controversy whether the workmen in fact do overtime work or not may be ended.

48. The management in its written statement has stated that no employee is now employed to do overtime and as such the demand for payment of overtime does not arise. At the hearing the union stated that there would be no dispute over the question whether the workmen in fact do overtime work or not if a system of signing off time, by which is meant recording the time when the work of each employee ends for the day, is recorded. The management does not deny that it would be liable to pay overtime if actual overtime work is done. The workshop employees are governed by the Factories Act and the payment of overtime would have to be made to them at the overtime rates fixed under that Act. Shri R L Sethi in his evidence stated that he would have no objection to a system being introduced by which the exact time when the employees cease to work at the end of their shift is recorded. It appears that in the workshops the departure time is noted in the job cards of the workmen. In my opinion, this is an unsatisfactory system. It should be very easy for the management to introduce the system of recording the signing off time in the attendance registers and I am surprised that this is not being done. If that is done the fact whether a particular employee worked overtime or not and if he did, the period of the overtime, could easily be determined. With regard to the rate of payment of overtime the union demands it at double the normal rate per day. I would direct that those of the employees who are governed by the Factories Act should be paid overtime at rates as provided under the Factories Act and others should be paid at 1½ times their normal rates of pay including dearness allowance for all hours of work beyond their scheduled hours of duty.

Demand No. 11 : – The absence of any separate code for the M.S.T. has been an obstacle in the guarantee of security and favourable terms and conditions of service of the employees under M.S.T. Hapazard and whimsical rules and standing order are issued by head of the department from time to time to the detriment and interest of the employees. So a compreshensive service code should be framed for the Manipur State Transport.

49. In its written statement the union has claimed that standing orders should be framed and certified under the Industrial Employment (Standing Orders) Act 1946. But as pointed out by the management under the provisions of Section 13B, that Act is not applicable to the M.S.T. in as much as the workmen employed therein are persons to whom the Fundamental and Supplementary Rules, Civil Service (Classification and Control) Appeal Rules, Central Civil Service (Temporary Service) Rules 1949 and or other Government Rules mentioned in that section apply. The management in its written statement has stated that Departmental Standing Order have been recognised by the Administration and are now in existence, copy of which has been supplied to the union. The administration in its letter of 5-2-1959 addressed to the Union (Exhibit W-6) has stated that the existing departmental rules will have to continue with suitable changes wherever necessary to be approved by the Government of India until such time as the undertaking is declared commercial.

50. Since the Industrial Employment (Standing Orders) Act, 1946 clearly does not apply to the establishment the demand of the workmen for getting standing orders certified under that Act cannot possibly be granted. There is however, no doubt that there does seem to prevail a considerable amount of confusion as to what exactly are the rules governing a particular condition of service. Before the Conciliation Officer the management undertook that they would be framed after the model standing orders for their Transport Service, but this is a matter on which many suggestions or changes as may be necessary in the existing orders and the same would be considered by the management and I would endorse that suggestion.

Demand No. 12 :—Uniforms for the running staff and other employees should be supplied.

51. In support of this demand the union in its written statement has stated that all State Transport Employees all over India are provided with uniforms and that the M.S.T. is one of the rare exceptions. The union claim that the nature of the service require that uniforms be supplied to the employees. The Administration in its written statement has challenged the correctness of the statement of the union that all transport services in India provide uniforms to their employees. It is pointed out that the Assam State Transport does not provide uniforms to its employees. The management has, however stated that it has recommended to the Administration that the staff should be provided with uniforms and those recommendations are under the consideration of the Government of India. Cleaners, Peons and Chaprasis of the M.S.T. are, however, provided with liveries. It also appears from the letter dated 20th April 1959 (Exhibit E-9) from the Secretary (T), M.S.T. to the General Manager, M.S.T. that the Chief Commissioner has accorded sanction for the supply of liveries to Watchmen, Daftris, Store Handlers of the M.S.T.

52. It appears that on 3-2-1959 the Secretary (H) of the Manipur Administration addressed a letter to the Secretary to the Government of India, Ministry of Transport and Communications, New Delhi recommending grant of uniforms for the Manipur State employees as stated in the statement Annexure 'A' thereto which is marked Exhibit E-9(1). The uniforms suggested are both for Summer and winter seasons for Traffic Inspectors, Drivers, Conductors, and Cleaners. The union at the hearing had nothing to say with regard to the item and quality of the uniforms proposed to be supplied but its anxiety was that those uniforms should be supplied without any further delay, and that the matter should not be delayed till the Government takes a decision. Since the matter is already under the consideration of the Government, I would recommend that a decision granting the proposals made should be taken at the earliest as the demand of the workmen for uniforms appears to be justified considering the condition of their work and the area in which they have to operate.

Demand No. 13 : Rest hour for the running staff at the Headquarters should be provided so that driver and conducters may have rest and sleep during the night on the eve of the Dimapur trip.

53. The running staff on the Imphal-Dimapur trip are called upon to report for work at 2.30 a. m. The Administration has provided a rest room for the staff who necessarily have to come to the headquarters earlier in the night so as to be able to start on the trip which leaves the headquarters at 2.30 a. m. The union complains that the rest room provided at the headquarters is inadequately equipped, and there is no bath room or lavatory nearby and sufficient number of cots are not provided. The union therefore demands that an adequately equipped and properly ventilated rest room should be provided without delay for the running staff at the headquarters

so that the drivers and conductors may get some sleep before starting for the Dimapur trip at 2.30 a. m. The management in its written statement on the demand has stated that the amenities to the existing running rooms are being added. It is stated that representations have been made for the changing of the convoy's time en-route and it is expected that the Dimapur convoy will start leaving between 5 and 6 a. m.

54. I had the opportunity of inspecting the rest room at the headquarters along with the representatives of the parties. The rest room has only a few cots and it appeared to me that the grievance of the workmen with regard to lack of proper ventilation and the facilities provided therein, is justified. There is no bath room or lavatory near the rest room though I was shown a water tap at some distance from the rest room. The Administration can easily provide drinking water in the rest room, as also more cots. It could also provide some furniture and other amenities to make the stay of the running staff comfortable during the hours they have to spend there before starting on their trip at the odd hour of 2.30 a. m. I, therefore, direct that the management should at the earliest attend to this. I cannot help observing that there appeared to be a general lack of consideration for the convenience of the workmen in this matter and that a more sympathetic attitude on the part of the management would help greatly to remove the dis-comforts that the workmen are at present experiencing.

55. Before this rest room was provided the practice was that the management used to provide free transport from the residence of the running staff to the headquarters. This system of free transport was stopped in March, 1959, because it was objected to by the Accountant General, Assam. Considering the odd hour of 2.30 a.m. at which the Dimapur Imphal service leaves, I think the demand of the workmen for supply of free transport to the headquarters is reasonable and I would therefore award that the practice of providing free transport which has been discontinued should be restored within a month from the date this award becomes enforceable.

Demand No. 11: Staff quarters for the employees at Dimapur, Kohima and Ukhrul should be provided.

56. It appears that certain staff are posted in Dimapur, Kohima and Ukhrul stations of the M.S.T. The Union's complaint is that those quarters are inadequate. It is demanded that quarters should be built for the accommodation of the employees in the said places and pending such construction, houses should be hired by M.S.T. and let out to the employees free of rent.

57. The management in its written statement has stated that staff quarters are already provided in Dimapur and Kohima and that the question of adequacy will be examined and if it is possible under the rules construction may be carried out after making the necessary budget provisions. A similar reply was given by the management in its letter to the Union dated 5-2-1959 (Exhibit W-6).

58. This question was also discussed at some length before the Conciliation Officer and from his report it appears that at present there is no staff posted at Ukhrul and there is therefore no need for staff quarters there. It also appears that the General Manager has written to the Deputy Commissioner for provision of sleeping accommodation at Ukhrul for the drivers and conductors who go there twice a week. There is, however, a proposal under the consideration of the Administration that the Ukhrul service be discontinued. The workers appear to have also expressed satisfaction at the management having written to the Deputy Commissioner for sleeping accommodation at Ukhrul and no directions with regard to accommodation at Ukhrul are therefore called for.

59. With regard to accommodation at Kohima and Dimapur, the workmen have expressed their dissatisfaction with the accommodation provided to the staff posted there. They want that a suitable house be hired and in the alternative they be granted house rent allowance. The management appears to have offered to hire a house at Kohima at a maximum rent of Rs. 100/- for the staff. The workers evidently were willing to suggest such a house but they requested that the ceiling of the rent of Rs. 100/- per month be raised. With regard to Dimapur, the General Manager had stated before the Conciliation Officer that he had called for plans and estimates for a running room with a kitchen, bath etc. and for a room for the workshop staff. The workmen on the other hand proposed that the existing retiring rooms should be used as running rooms and quarters for the workshop staff, till such time regular rest rooms and quarters for the workshop and running staff are constructed.

60. I have had the benefit of inspection of the accommodation provided for the Staff of the M.S.T. posted at Kohima and Dimapur and I may state that I found the accommodation unsatisfactory. A Station Master, two clerks, and a peon, are posted at Kohima and this staff lives in the office, which is also used as a godown. I found the Kohima station stock full of luggages and parcels. There is no separate rest room for the running staff who have occasionally to spend the night there. At Dimapur the station staff consists of one Station Master, two Lower Division Clerks, two clerks and one peon, who are accommodated in the office premises. These arrangements were also in my opinion unsatisfactory. With regard to the workers of the workshop at Dimapur, six of them are at present residing in a garage. The running staff are also provided accommodation in the garage which is their rest room. I found these arrangements also unsatisfactory. There was only one room near the garage in which the running staff and the workshop workmen reside. The management has pleaded that under the Government rules no duty is cast on it to provide housing accommodation for the staff posted at Dimapur and Kohima stations. I was told that the staff also rotates every six months except for the Station Master at Dimapur. All the same, the management has accepted the obligation for providing accommodation for the staff posted at Dimapur and Kohima.

61. From the record of the proceedings before the Conciliation Officer it does appear that the management is now moving in the matter of providing staff quarters for the staff posted at Dimapur and Kohima and also making efforts to provide better accommodation for the running staff which halts overnight at these two stations. I am conscious that this being a Government department it would take some time before these efforts of the management fructify. It is also to be remembered that there is scarcity of accommodation and there are many difficulties to be overcome before proper staff quarters can be constructed either at Dimapur or Kohima. But if real efforts are made in this matter as in my opinion, they should be made in the interest of industrial peace, something could be achieved within a reasonable time and I strongly recommend the management to provide better quarters for the staff posted at Dimapur and Kohima and also to provide better rest rooms for the staff staying there overnight. There can be no question of granting any compensation in lieu of this to the workmen concerned as under the Service Rules the staff are not entitled to free housing at these stations.

Demand No. 15 :- Muster Roll workers in the Manipur State Transport workshop should be regularly employed and the rights of the other employees of the staff should be conferred on them after three years.

62. It was ascertained at the hearing that there are about 37 casual workers who are employed on muster rolls in the workshops of the M. S. T. Shri Hodam Bira Chandra Singh, Assistant Engineer in the M. S. T. (E. W. 3) in his evidence stated that of the 37 casual workers two are skilled workmen and all the rest are semi-skilled. He further stated that about 4 of these casual workers have been in continuous employment since the last 7 years. These muster roll employees are not allowed paid weekly holiday or any annual leave with wages. The union's witness Ghyanendra Singh (W. W. 5) gave particulars of the categories of these casual workers from which it appears that about 10 or 11 of them are carpenters and about 20 are fitters including a blacksmith and about 3 or 4 are cleaners. The management's case is that it is not possible to confirm these muster roll workmen as permanent employees but that it was proposed to create six temporary posts of carpenters and when these posts are sanctioned, the question of absorbing the casual carpenters in those posts would be considered. The management also pointed out that 4 casual fitters have been absorbed in vacancies as they occurred and it assures that as and when suitable vacancies occur casual workers who are found competent would be absorbed. The management suggested that as it is not easy to get skilled workers in Manipur, a pool of casual workers is necessary. It appears from the conciliation proceedings that the proposal for creating the six posts of carpenters has been submitted to the Government of India. The workers, however, wanted that six more posts of fitters should also be created and the casual fitters on muster roll should be absorbed in those posts. The difficulty of the management is that it does not consider the casual fitters to be properly qualified to be promoted as regular fitters and it has pointed out that recently only 3 fitters passed a test held by the management and they are going to fill up those vacancies.

63. It does appear to me that the workmen have a genuine grievance in the manner in which workers have been employed as casual workers over a period of years. The M. S. T. is an expan-

ding department and it should be possible to put the casual workers at least on the basis of temporary employees. By being treated as casual workers and being placed on muster rolls and paid daily wage they do not get the benefit of a paid weekly holiday nor are they entitled to other benefits which the temporary worker of the M. S. T. enjoy. I think this is manifestly unfair to these casual workers who have been in employment over years and I would strongly recommend to the management and the Administration to seriously consider the possibility of appointing at least those casual workers who have put in 3 years continuous satisfactory service and who are found competent as temporary workmen so that they may get the benefit which the temporary workmen get.

Demand No. 16 : At present there are no chowkidars' sheds in all the stations and the Headquarters of the M. S. T. except at Dimapur. The sheds should at once be constructed.

64. The Union in its written statement has stated that the management has conceded the justification for the demand but that no steps have been taken for the construction of the sheds. It is, therefore, demanded that the sheds should be constructed without any further delay. The administration in its written statement has stated that budget provision is being made for the cost of the construction of the chowkidar sheds and that as soon the Government of India sanction necessary funds chowkidars sheds would be constructed. Before the Conciliation Officer the General Manager in reply to the workers demand for the immediate provision of the Chowkidars shed at Imphal promised that he would allot a room near the canteen as a temporary measure pending construction of a regular chowkidars' shed in 1959-60. I cannot help observing that even this small demand the justification of which is conceded is not being met because of departmental routine difficulties. I am sure if the matter is seriously taken up by the management they could find ways and means to meet the demand. I would therefore direct that the chowkidar shed should be provided as claimed within six months of the award becoming enforceable.

Demand No. 17 - A general revision of the pay scales of the employees should be made with due and proper consideration of the special characteristic of the commercial undertaking.

65. In support of this demand the union in its written statement of claim has stated as follows:

"With reference to demand No. 17, the Union states that the prevailing wages in the Manipur State Transport are inadequate. The cost of living at Manipur is high. All manufactured goods have to be brought over long distances, often by air and at great costs. The scales of wages have been fixed arbitrarily and without reference to the cost of living or to the nature of work which is of a hazardous character. The minimum wages are well below what minimum wages ought to be. The union demands that the present minimum wages should be raised by Rs. 10/- per month and that existing differentials between grades and scales be maintained by granting similar increases in respect of all other grades and scales."

66. The M. S. T. in its written statement in reply has stated that the pay scales of all the staff had been recently revised and it was not possible to start any other kind of general revision at this stage. In his letter to the Union dated 5-2-1959 the Assistant Secretary (L) Manipur Administration claimed that the pay scales of Grade III and IV clerks had recently been revised by the Government of India and therefore any general revision of pay scales was not possible.

67. At the very outset it is necessary to state that at the hearing it was argued that the increase of Rs. 10/- per month demanded may be granted either in the basic wages or in the dearness allowance paid at present. But the latter basis for the demand cannot be considered as the Tribunal must confine itself to the terms of the demand, which forms the subject matter of the reference. As the demand made by the workmen is clearly for an increase of Rs. 10/- in their existing basic pay, the demand for the increase of Rs. 10/- per month, cannot be considered as a demand for increase in the existing rate of dearness allowance. At a later stage of the hearing, it was urged that the increase of Rs. 10/- demanded may be awarded even as an ad-hoc allowance. But for the same reason, as stated above, the demand cannot also be considered in this altered form.

68. The existing scales of pay for the clerical staff of the M.S.T. are those which were sanctioned, with retrospective effect from 1-4-1957 for the clerical staff in the entire Manipur Administration and they are :—

Upper Division Clerks : Rs. 100-5-180

Lower „ „ Rs. 55-3-100-5-130

When these revised scales of pay were put in operation, the then existing pay of each employee was fixed in the new pay scales under F.R.22(a)(i) and he was allowed the option admissible under F R 23 (Exhibit E-14).

69. At the same time the pay scales of the various class IV Government servants under the Manipur Administration were revised also with effect from 1-1-1957. These revised scales of pay are also applicable to Class IV employees, who are now paid in the pay scale of Rs. 25-1-40, which is also the pay scale for like categories of employees working in the other departments of the Manipur Administration.

70. The pay scales at present in force for the various other categories of employees in the M.S.T. are those shown in the statement (Exhibit E-18) filed by the management. It is admitted that no category of employees in the M.S.T. is getting a lower scale of pay than paid for a like category in the other departments of Manipur Administration. In fact, drivers of the M.S.T. who number about 60 [(See Exhibit E-23 (a)] are all in the scale of pay Rs. 60-3-105, which is the higher of the two scales of pay fixed for drivers.

71. With regard to the casual workers entertained by the M.S.T. they are on daily rates of pay which vary from Rs. 3/- per working day for the head-carpenter (skilled) Rs 2 8-0 for 2nd Carpenter (skilled) and Rs. 1-12 0 for semi-skilled carpenters and fitters. (Exhibit 18).

72. The revised pay-scales for the Transport Department of the Manipur Administration are mentioned in the schedule to the Ministry of Home Affairs letter No. 1/82/67 M.T. dated 1.10.1958 (Exhibit E-15). The Administration has also filed the scales and rates of pay payable to its employees in the P.W.D. (Exhibit E-15 16 and 17). I may repeat that these statements show that for no like category is the scale of pay fixed for the M.S.T. lower than in the P.W.D.

73 The dearness allowance paid to the employees of the Manipur Administration is based on the rate of dearness allowance sanctioned from time to time by the Assam State Government for its employees. These rates, till their recent revision, to which I shall refer presently, were : —

	Basic Pay.	Dearness Allowance.
1.	Government servants drawing pay not more than Rs. 30/- or below.	10% plus Rs. 6/
2	Government servants drawing pay not more than Rs. 60 - or below.	20% plus Rs. 6/-
3.	Government servants drawing pay not more than Rs. 100/ or below.	15% plus Rs. 6/-

74. In February 1958, the Assam Government sanctioned with effect from 1.4.1957, an ad hoc increase in the dearness allowance to those Government Servants whose total emoluments (pay plus D.A.) would not, after the ad hoc increase, exceed Rs. 100 - per month subject to the condition that the total increase in emoluments under the revised pay scales adopted in Assam, plus the ad hoc increase in dearness allowance, would not exceed Rs. 12 - in each case.

75. The Manipur Administration by Finance Department Resolution dated 23 4 1958 (Exhibit E-19) granted the same increase in dearness allowance to its employees as was granted by the Assam Government, also with effect from 1.4.1957. The resolution provided that the ad hoc increase in dearness allowance will be reduced proportinately by future increments and also the marginal cases by the amount by which this increase exceeds Rs. 100/- p. m. as total emoluments. From a statement filed by the management (Exhibit E-32) at the hearing it appears that about 209 employees of the M. S. T. got some increase in their dearness allowance paid to them in March 1959 and that the total amount of the benefit for that month amounted to Rs. 1,560-27 Np.

75. From the foregoing it will be seen that the pay scales as also the rate of dearness allowance paid to the employees of the M. S. T have been raised and revised only recently Under the existing rates of pay and dearness allowance the monthly emoluments paid to the lowest paid Class IV workers conductor and drivers who together constitute the majority of the employees of M. S. T is as follows :—

	Pay Scale	Basic pay of the lowest paid	D. A.	Total monthly remuneration
Class IV Employees.	Rs. 25-1-40	Rs. 25	Rs. 23	Rs. 48
Conductor	30-1-45	30	30	60
Drivers	60-3-105	60	18	78

It must also be remembered, as I have stated earlier when discussing demand No. 6, that drivers on the Imphal-Dimapur route get a trip allowance and that it is proposed to extend that benefit to cleaners and conductors not only on that route but also other routes. This to a certain extent compensates them for their hazardous duties. It must also be remembered that the total average remuneration of the employees of these categories would be higher as the majority of them have, since their scales of pay came into force, earned their annual increments.

76. The first ground urged by the Union in support of this demand is that the present scales of pay for the employees of the M. S. T. are lower than those granted by the State Transport authorities to its employees in Delhi and to Government employees in Assam and Tripura Shri L. Achaw Singh, M. P the President of the Union, who gave evidence at the hearing (W.W 1) stated that in reply to a question put by him in the Lok Sabha on 23-8-1957, with regard to the pay scale and allowances for Government employees in Assam Tripura and Manipur, he was supplied with a comparative statement by the Ministry of Home Affair and he produced the relevant parts of that statement (Exhibits W(1) and W(M1). He also produced the scale of pay, allowance etc. paid by the Delhi State Transport Authorities to its employees as stated in a printed official publication of that authority. (Exhibit W(W) and W(S1). The figures regarding the dearness allowance paid by Delhi Transport Authorities were collected by the witness from a typed schedule supplied to him The Union has also referred to the report of the enquiry conducted by the Labour Bureau of the Government of India into the labour conditions in the Public Motor Transport in India, appearing in the August 1958 issue of the Indian Labour Gazette and it has relied upon the higher scales of pay being granted by some of the bigger states to the employees in Public Motor Transport.

77. Now one of the principles governing wage fixation is what is known as the industry cum region principle. As laid down by the Hon'ble Supreme Court in the case of the Express Newspapers (Private) Limited and another Versus Union of India and others (A. I. R 1958 S. C 578), in fixing the minimum wage, one of the factors which a Tribunal must take into account is the prevailing rates of wages [illegible] in the region or locality having regard to the nature of the employment. On that principle it would be quite impossible to take into account the scales of wages being paid in the Public Transport industry at Delhi or even for a matter of that what is paid to Government Servants in Assam and Tripura The Union has not shown what are the scales of pay being paid to the employees of the other Transport services in Manipur Administration area. The fair basis to adopt therefore would be to see what are the scales of pay being paid to the employees in the other departments of Manipur Administration I cannot lose sight of the fact that the employees of the M. S. T. are Government servants In adjudicating an industrial dispute of workmen in an industry carried on by Government, the scales of pay paid to other Government Servants in the same region, must be taken into account. The Manipur Administration has several other departments which are functioning at Imphal and the scales of pay and rate of dearness allowance paid to the employees of the M. S. T. are not lower than the scales of pay paid to like classes of employees in those departments. If the scales of pay of the employees of the M. S. T. were to be increased, there would be the inevitable repurcussion in the other departments of the Administration. No wage fixing authority can possibly ignore that eventuality.

78. It was next sought to be argued by the Union that a revision of the existing pay scales was justified because there had been a rise in the cost of living in Manipur State and the present wages of the employees were inadequate to meet their essential requirements. Now there is no cost of living index or consumer price index number worked out either for the

working or middle class for the Manipur area. The Union's case was that on the prevailing prices of essential commodities, the employees of the M.S.T. were not on their present wages even able to meet their food requirements on the basis of the norms recommended by the Nutrition Advisory Committee. The Union at the hearing examined two witnesses - one Shri Iboton Singh (W.W 3) a local Grocer, who produced a list of the prevailing prices of essential commodities in his shop, and the other Shri Haobijum Shyamkishor Singh (W.W. 4), who produced a list of the goods which he had purchased on 22-4-1959 for prices mentioned against each item. But I may say that this evidence was so unsatisfactory, that the Union itself did not at a later stage seek to rely upon it. On the other hand the M.S.T. led the evidence of Jogendra Singh (E.W 1), who is the marketing Inspector in the Office of the Deputy Commissioner at Imphal. He has to prepare a fortnightly statement of the prices of essential commodities at Manipur and has to submit the same to the Chief Secretary and Statistical Officer Manipur Administration. He stated that the preparation of such a fortnightly statement had commenced from October 1957 and he produced the statements which he had prepared for ten fortnights from fortnight ending 15-10-1958 to the fortnight ending 30-4-1959 (Exhibit E-8 series). These statements show that whilst during this period there have been periodical rises in the prices of certain items of commodities included in those statements, there have also been periodical falls in their prices and prices of certain items have remained stationary. From these statements it is impossible to work out what has been the rise in the cost of living at Manipur since October 1958. The union however, sought to argue that each adult consumption unit at Imphal at present requires Rs. 50-31 nP. per month as the cost of diet alone on the basis of the recommendation of the Nutrition Advisory Committee. It has claimed that its calculations were based on the fortnightly report of market prices ending 15-4-1959 as prepared by the office of the Deputy Commissioner's office, Manipur. It has, however, taken the prices of certain commodities not included in the Government report at prices which according to it are prevailing in the local market. On that basis the Union has argued that the cost for diet alone of a family consisting of 3 consumption units in Manipur would be Rs. 152-02 P. If the cost of food were to be taken as being say 50% of the total budget of a family of 3 consumption units, then we get the starting figure of over Rs. 300 as being requirements per month for an average family of 3 consumption units, in Manipur which is an impossible proposition to accept. This figure is so much higher than what has been found to be the requirement of the typical family of 3 consumption units by Wages Board for other begger and costlier cities, as to make it impossible to be accepted. It must also be remembered that a rise in the cost of living is ordinarily neutralised, and that does not fully by an increase in the dearness allowance and not by changing existing pay scales particularly when they have been recently revised as in this case.

79. The Union's demand is for a lump sum ad hoc increase of Rs. 40/- per month in the existing basic pay of each employee. In the case of Ganesh Flour Mills Co. Ltd. and their workmen (1955 L.A.C. 603) and Modi Eastern Wool and their workmen (1955 I.A.C. p. 450), the Labour Appellate Tribunal has clearly stated the grant of demand for ad hoc increases in existing wages. The Union in its written statement has suggested that the minimum wage should be raised by Rs. 40/- and existing scales of pay be maintained by granting similar increase in respect of all grades and scales, but the again amounts to nothing more than a demand for granting an ad hoc increase in the existing scales of pay of each employee irrespective of the category unskilled, semi skilled or skilled, to which he belong. Such a demand is both un-scientific and impracticable to grant.

80. For the reasons stated above, demand No. 17 is rejected.

81. In the result on issue No. 3 I make an award as stated above on each of the 17 demands forming part of that issue.

82. This Award is submitted to the Chief Commissioner, Manipur Administration, Imphal, under Section 15 of the Industrial Disputes Act, 1947 (Act XIV of 47).

83. Before I take leave of this reference, I must express my thanks for the kind and cordial treatment which I received during my stay at Imphal at the hands of the representatives of both the parties to the dispute and for the efforts which they made to make the stay of myself and of the members of my staff comfortable during our sojourn in their beautiful country.

Presiding Officer, Industrial Tribunal for the Union Territory of Manipur.
